GENERAL DIRECTIONS
1. Dust lightly on first appearance of insect or insect injury.
2. Make complete coverage of all pests and all parts of plants especially upper and lower leaf surfaces.
3. Repeat applications as necessary for control, but observe the number of days before harvest for last application noted by each crop (for instance on Cabbage, Broccoli, Brussels Sprouts, Cauliflower and Kohlrabi you may apply this dust up to 3 days before picking or harvest).
4. Repeat applications if rain occurs within 24 hours after application of dust.

VEGETABLES
BEANS (day of harvest) — for control of Flea Beetles, Mexican Bean Beetles, Leafhoppers, Cucumber Beetles, Western Bean Cutworm.
CABBAGE, BRUSSELS SPROUTS, BROCCOLI, CAULIFLOWER, KOHLRABI — (for control of Flea Beetles, Armyworms, Cabbage Caterpillars, Corn Earworm.

DOGS and CATS
On the animals — for control of Fleas and Brown Dog Ticks — dust liberally over the animals, avoiding the eyes, and rub thoroughly through the hair to the skin. Repeat at weekly intervals if necessary. Do not use on kittens or puppies under 4 weeks old.

In the animal quarters — for control of Fleas and Brown Dog Ticks — dust liberally in and around dog houses, kennels, sleeping areas. Force dust into all cracks and crevices. Repeat as necessary.

CAUTION
Harmful if inhaled or swallowed. Do not breathe dust. Do not take internally.

Skin contact may be harmful. Avoid contact with skin. Wash hands and face before eating.

Note to Physician — Carbaryl is a moderate, reversible, cholinesterase inhibitor. Atropine is antidotal.

Avoid contamination of feed or food. Wash all vegetables and fruits before eating or canning.

For protection of honey bees, avoid use during periods when they are visiting the garden. When necessary to use during such periods, warn beekeepers well in advance to locate hives at a safe distance (beyond bee flight range) until one week after applications.

Destroy empty container. Do not re-use for any purpose.
