PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION. Harmful if swallowed. Avoid breathing spray
mist. Avoid contact with skin, eyes or clothing. In
case of contact, immediately flush eyes or skin with
plenty of water. Get medical attention if irritation
persists.

ENVIRONMENTAL CAUTIONS
Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.
Do not apply when weather conditions favor drift from target area.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. Do not reuse container. Rinse thoroughly before discarding and securely wrap original container in several layers of newspaper and discard in trash.

USE PRECAUTIONS

Use separate hose-end or pressure sprayer for weed killing only.

Avoid drift of spray mist onto vegetables, grapes, flowers, cornamental plants, shrubs, shade and fruit trees, and other desirable plants. Coarse sprays are less likely to drift. On not apply to areas underlaid by roots of desirable trees and shrubs. Do not pour spray solutions near these plants. Do not use on Dichondra, Carpetgrass, Centipede or St. Augustine grasses. Clovers present will be damaged if sprayed.

Lilly/Miller LAWN & TURF WEED KILLER controls Bedstraw, Buckhorn, Buttercup, Chickweed, Clover, Dandelion, Dock, English Daisy, Ground Ivy, Henbit, Japanese Clover (Black' Medic), Knotweed, Lambsquarter, Mallow, Morningglory, Oxalis, Pigweed, Plantains, Poison Oak, Purslane, Shepherdspurse, Speedwell, Spurge, Yarrow, and most other broadleaved lawn weeds.

NEW LAWNS AND BENT GRASS TURF DIRECTIONS FOR USE

On new lawns wait until turf has been mowed two or three times and has reached a height of 2 inches before making an over-all spray treatment. Then spray with 2/3 of the dilutions given for established lawns (for example, in Hose-end Sprayers, use 5 tablespoons, fill jar to 5 gallon mark and spray 1000 sq. ft. of lawn. In pressure Sprayers, use 1 tablespoon in 1 gallon of water and spray 200 sq. ft. of lawn).

"Spot Spray" weed treatment (at half strength) may be made at any time with a small pressure sprayer. Hold the nozzle near ground level and spray the weeds only. (On Bent Grass lawns, temporary yellowing may occur.) Wait three weeks after treatment before putting new grass seed or stolons down in the bare spots.

ORNAMENTAL LAWNS & TURF (Other Than Bent Grass)

WHEN TO USE on established Lawns and Turf- spray at any time during the growing season when weeds are actively growing. Treat Chickweed in the fall or in the spring as needed. Poor weed control may result if spray is applied during drought or just before rain.

For best results, mow lawn 2 or 3 days before treating. Do not water lawn within 24 hours after treatment. Repeat application, if necessary, for hard-to-kill weeds. Observe Use Precautions.

HOW MUCH TO USE - Over-all Spray Treatment
HOSE END SPRAYERS: Use a hose-end sprayer designed for lawns.
Put recommended amount of this product in jar, add water to
indicated level, mix thoroughly and spray on area indicated.
For example, to spray 3000 sq. ft. of lawn, measure 20 tablespoons into jar, add water to the 10 gallon level and mix
thoroughly. Attach jar to hose, turn water on and spray as
evenly as possible over the 3000 sq. ft.

and the second of the T

Use this amount of LAWN & TURF WEED KILLER	Fill jar to (gallons)	to spray this amount of lawn or turf
2 tablespoons	1	300 sq. ft.
10 tablespoons	5	1500 sq. ft.
20 tablespoons	10	3000 sq. ft.
30 tablespoons	15	4500 sq. ft.

PRESSURE SPRAYERS - measure indicated amount of this product into tank and dilute with water according to the following chart. Use a spray pattern which gives small droplets without any fine mist and cover the area indicated.

Use this	In this	to spray		
amount of	amount	this amount		
LAWN & TURF WEED KILER	of water	of water or turf		
2 tablespoons	1 gallon	300 sq. ft.		
4 tablespoons	2 gallons	600 sq. ft.		
6 tablespoons	3 gallons	900 sq. ft.		
1 pint	16 gallons	4800 sq. ft.		

NOTE: Whether using a hose-end sprayer, or pressure sprayer, avoid sprays which are too fine because they to can drift and damage ornamental or garden plants.

"SPOT SPRAY" Treatment on established Lawns and Turf.
To spray small area, or individual weeds, use pressure sprayer (do not use hose-end sprayer). Mix 4 table-spoons of this product in 1 gallon of water in pressure sprayer and spray as required being certain to "wet" each weed.

Trene Boone Tre Chas. H. Lilly Co. 7737 NE. Killingsworth Portland, OR 97218

Dear Ms. Boone:

Subject: Label Revision: AOAC Metnoc

Lilly/Niller Lawn & Turf Weed Killer

EPA Registration No. 802-485 Your Submission of June 13, 1983

The amendment referred to above, submitted in connection with registration under FIFRA is acceptable, provided that you:

- 1. Hake the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a. Modify "Keep out of lakes streams or ponds" to read:

Do not apply directly to water

- b. Place the ingredient referrals as a substatement immediately below the ingredient declaration.
- Submit five (5) copies of your final printed labeling before you release the product for shipment.
- A stamped copy of the labeling is enclosed for your records.

We are assuming that the weight of water on the Confidential Formula is a typographical error and is 2772 to be identical with previously submitted tormulas.

Sincerely yours,

Richard F. Hountfort Front Product Manager (23)
Pungicide-Herbicide Branch
