

LILLY/MILLER  
SUPER RICH LAWN FOOD  
WITH MOSS CONTROL  
15-3-6

Fertilizer Coverage: 2500 sq. ft.  
For Moss Control: 1250 sq. ft.

ACTIVE INGREDIENTS:

- \*Ferrous sulphate monohydrate . . . . . 8.80%
- \*Ferrous sulphate (7H2O) . . . . . 4.78%
- INERT INGREDIENTS . . . . . 86.42%
- \*Equivalent to 10% Ferrous Sulfate Anhydrous

Keep out of reach of children

CAUTION

See back panel for additional precautionary statements.

NET WT. 16.6 LBS.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Induce vomiting if swallowed. Wash hands after use. Avoid contact with skin, eyes, or clothing. Avoid breathing dust.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed, give one to two glasses of water and induce vomiting by touching back of throat with finger. Get medical attention. If On Skin, wash thoroughly with soap and water. If In Eyes, flush with plenty of water for 15 minutes. Get medical attention if irritation persists

ENVIRONMENTAL HAZARDS

Do not apply directly to water or wetlands. Do not contaminate water when disposing of equipment washwaters.

Lilly/Miller Super Rich Lawn Food with Moss Control contains nutrients shown in this exploded view of this quality lawn care blend.

NITROGEN, water soluble

Just add water and it goes to work feeding your lawn immediately. Nitrogen is a protein builder, helping grass to grow healthy and strong. Gives your lawn its rich green color.

NITROGEN, water insoluble, organic

Lilly/Miller's special time-released nitrogen. Released to the grass roots slowly and continuously, by action of bacteria in the soil. Feeds your lawn over a long period of time. Builds protein and color through steady feeding.

PHOSPHORIC ACID

This important nutrient helps early growth and root formation. Helps

young plants grow strong.

#### POTASH

Potash encourages a strong root system. Builds up your lawn's resistance to disease.

#### SULFUR

An essential element for protein movement. Helps nitrogen promote strong, sturdy plant growth.

#### IRON

Iron is necessary for chlorophyll production. This important element helps turn your lawn that deep emerald green.

**SUPER RICH LAWN FOOD with Moss Control** is a fully balanced, complete lawn food, containing five essential growing elements. It helps turn your lawn into a lush green carpet of healthy, strong turf.

A regular feeding of **SUPER RICH LAWN FOOD with Moss Control** nourishes your lawn with Nitrogen for 5 to 7 weeks, helping to keep it green and to develop strong, hardy turf.

A full feeding with **SUPER RICH LAWN FOOD with Moss Control** feeds your lawn with Nitrogen for up to 12 weeks plus adds other nutrients. This helps to green your lawn and nourish it completely. This full feeding also eliminates moss in your lawn, leaving it rich, green and thriving. If lawn moss isn't a problem, the extra iron in a full feeding will help green your lawn thoroughly and help make it lush, emerald turf.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### STORAGE AND DISPOSAL

Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. Do not reuse bag. Securely wrap in several layers of newspaper and discard in trash.

#### DIRECTIONS

##### A. Regular Feeding

For a 5 to 7 week nitrogen feeding of established lawns at any time of year.

1. Mow lawn so fertilizer will enter soil readily.
2. Apply **SUPER RICH LAWN FOOD with Moss Control** at the rate of 16.6 lbs. per 2,500 sq. ft. See Spreader Chart below.
3. Water regardless of temperature.

##### B. Full Feeding with moss control

For up to 12 weeks of nitrogen feeding of established lawns at any time of year.

1. Mow lawn so fertilizer will enter soil readily.
2. Apply **SUPER RICH LAWN FOOD with Moss Control** at the rate of 16.6 lbs. per 1,250 sq. ft. See Spreader Chart below.

3. Water regardless of temperature.

**HOW TO SPREAD LAWN FERTILIZER**

Lawns must be thoroughly watered the day before application.

Begin spreading by laying down two strips of lawn food at each end of lawn. Fill in remaining area as shown here.

Close the spreader when you stop walking or make turns to avoid uneven coverage. Stopping and starting with the spreader box open will waste lawn food.

Overlap previous wheel track slightly, as shown, to avoid gaps in coverage.

Water in after application to start the greening process.

**SPREADER SETTINGS:**

APPLICATION RATE	LILLY/MILLER SPREADER	CENTRAL SPREADER	SCOTTS MODEL 35, 75 & PF-1	ORTHO NO. 3000
Regular feeding 16.6 Lb. per 2,500 Sq. Ft.	5 1/2	7	6	5
Moss Control Feeding 16.6 Lb. Per 1,250 Sq. Ft.	8 1/2	9 1/2	9	7 1/2

**NOTICE:** The spreader settings given on this bag have been carefully determined by actual test in new equipment. Incorrect dial settings, walking speed, wear, spreader calibration and general condition of spreader can materially affect the rate of flow. Since these conditions are beyond our control, neither The Chas. H. Lilly Co. nor the retail dealer can guarantee exact coverage as indicated by the recommended dial settings.

**USE PRECAUTION:** Keep this product off sidewalks, patios, driveways, etc. This fertilizer contains iron for plant nutrition and moss control which will stain concrete and painted surfaces. If it comes in contact with concrete surface, sweep off immediately before flushing with water. If concrete is wet when contact occurs, staining may be impossible to prevent. Be careful when using rotary spreaders which scatter fertilizer beyond lawn edge and onto concrete.

**GUARANTEED FERTILIZER ANALYSIS:**

Total Nitrogen (N) . . . . . 15%  
 9% Ammoniacal Nitrogen  
 3.6% Urea Nitrogen

0.1% Other Water Soluble Nitrogen  
 0.7% Coated Slow Release Urea Nitrogen  
 1.6% Other Water Insoluble Nitrogen  
 Available Phosphoric Acid (P2O5) . . . . . 3%  
 Soluble Potash (K2O) . . . . . 6%  
 Sulfur (S) . . . . . 12%  
 Iron (Fe) . . . . . 5%

Primary and secondary nutrients from Ammonium Phosphate, Ammonium Sulfate, Muriate of Potash, Processed Tankage, Sulfur-Coated Urea, Urea, Iron Sulfate.

Filled by weight not by volume. Product may settle after packaging.
