

JUN - 3 1994

Ms. Molly Hickman
The Chas. H. Lilly Co.
7737 NE Killingsworth
Portland, OR 97218

Dear Ms. Hickman:

Subject: Revised labeling
Lilly/Miller GO-West Slug Killer
EPA Registration No. 802-506
Amendment application of April 29, 1994

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling change given below before you release the product for shipment bearing the amended labeling.

The statement "Protect pets from treated areas" must be change to "Keep pets out of treated area." Delete the statement "Do not allow pets to play on treated areas until spray have dried."

In the Statement of Practical Treatment change the words "affected person" to "victim".

In the Directions for use change the statement "Use only what you need," to "Use as directed". Change the statement "When the container is empty, simple throw it away." to "When the container is empty, discard according to disposal statement."

-2-

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DHE

Dennis H. Edwards, Jr.
Product Manager (12)
Insecticide Rodenticide Branch
Registration Division (H7505C)

1,3,5,7-tetraoxycyclo-octane) 10.5%
INERT INGREDIENTS 89.5%

JUN - 3 1994

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

802-506

Keep out of reach of children

This pesticide may be fatal to dogs or other pets if eaten. Protect pets from treated areas since they may be attracted to this product when applied. Do not allow pets to play on treated areas until sprays have dried.

CAUTION

See back panel for additional precautionary statements.

NET CONTENTS 24 FL OZ. (709 ml)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if inhaled or absorbed through skin. Causes eye irritation. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

This pesticide may be fatal to dogs or other pets if eaten. Protect pets from treated areas since they may be attracted to this product when applied. Do not allow pets to play on treated areas until sprays have dried.

STATEMENT OF PRACTICAL TREATMENT

If Inhaled: Remove affected person to fresh air. If not breathing give artificial respiration, preferably mouth-to-mouth. Get medical attention. If In Eyes: Flush eyes with plenty of water. Call a physician if irritation persists. If On Skin: Wash with plenty of soap and water.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

=====
DIRECTIONS FOR USE (Version A)

It is a violation of Federal law to use this product in manner inconsistent with its labeling. For household use only.

GO-WEST SLUG KILLER controls slugs and snails in the lawn and garden. Begin applications as early as February and continue with treatments as needed into the fall.

HOW TO USE: SHAKE WELL BEFORE USING

1. Connect spray nozzle to garden hose. Be sure that valve is in "off"

position.

2. Attach dip tube to the spray nozzle.
3. Remove cap and screw bottle onto nozzle. Turn on water.
4. Switch valve to "on" position to start flow of water. Use valve to shut off flow of water at any time.
5. Spray directly over area requiring application evenly and uniformly.

SPRINKLING CAN

Mix 3 ounces (6 tablespoons) GO-WEST SLUG KILLER per gallon of water. Apply to 125 sq. ft. (an area approximately 12 feet by 10 feet).

HOSE-END SPRAYER

Use 3 ounces (6 tablespoons) GO-WEST SLUG KILLER for each gallon of water delivered by your sprayer. Apply one gallon of this mixture to 125 sq. ft. (an area approximately 12 feet by 10 feet).

For complete control, cover entire area. GO-WEST SLUG KILLER should be applied in the evening as slugs feed mostly at night. Re-apply after two weeks or after heavy rain. DO NOT USE ON VEGETABLE GARDENS.

=====

DIRECTIONS FOR USE (Version B)

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only.

What is this product? And what will it do?

Lilly/Miller GO-WEST SLUG KILLER stops these pests from devouring your favorite flowers, sliding across your lawn, and covering your driveway or patio. It goes on quickly and easily reaches those hard-to-bait areas under shrubs, in ground covers, on hillsides, and in rock gardens.

This easy-to-use container attaches right to your garden hose, so there's no mixing. Use only what you need, then put it away for next time. When the container is empty, simply throw it away.

How do I use this product?

When to use: Snails and slugs can be active all through the year, if conditions are right. The damage they cause is most visible as gardens get into full swing in early spring. During hot weather, they are often forced to find protection from the heat, but you will see their damage increase as rains return in the fall. To keep snails and slugs under control for the entire season, spray with GO-WEST SLUG KILLER every two weeks.

Snails and slugs prefer moist areas during the day and come out of hiding at night. Spray in the evenings, just before dark.

What to do: Slugs hide under pots, fallen leaves, boards, and any other debris left around the yard. Get rid of as many of these hiding places as possible, before you start spraying. In the evening, spray around flowers, shrubs and trees. Mulched beds and barkdust areas are good hiding places for snails and slugs. Be sure to spray these places.

How to use this sprayer: Shake the container well before getting started. Attach the bottle of GO-WEST SLUG KILLER to your garden hose. Be sure the red ON/OFF knob is in the OFF position.

Turn on the water from the faucet. When you are ready to spray, turn the gold knob so the triangle mark points at the triangle on the spray head. Push it in. Turn the red knob one-quarter turn counter-clockwise and begin spraying.

To stop spraying at any time, turn the red knob back to the OFF position. When you are finished with the job, push the gold knob out from the back side of the spray head and turn it so the triangle points away from the mark on the spray head. This will prevent the container from leaking.

This product may separate, but this does not affect the way it works. Simply, shake well before using.

This whole bottle will cover 1,000 sq. ft. (50'x 20'). One quarter of the bottle (see markings on the side) will cover 250 sq. ft. (10'x 25'). Let the spray dry before you let adults, children or pets back onto the area.

What not to do: Do not spray GO-WEST SLUG KILLER on vegetables or in the vegetable garden. Do not allow the product to form puddles which may attract pets. Do not let adults, children, or pets onto the area until the spray has dried.

What will I see?

GO-WEST SLUG KILLER does not drop snails and slugs in their tracks. They often crawl away a bit to die, so you will not see mounds of these pests lying about.

But, you will not see snails and slugs on the patio each evening and you will not hear them crunch or squish underfoot. Your flower seedlings will live to adulthood, and there will be fewer holes in the leaves of all the ornamental plants in your garden.

=====

STORAGE AND DISPOSAL

Store this product in its original container. Do not reuse container or hose-end attachment. Rinse thoroughly and discard in trash.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling when such use and/or handling is contrary to label instructions.
