Strawberry Root Weevils,
Cutworms, Earwigs, Sowbugs

For all
you need
to grow

KILLS all these garden pests

READ THE ENTIRE LABEL BEFORE USE, NOTING ALL PRECAUTIONS

GO WEST MEAL is a multi-purpose product designed not only for control of slugs and snails but also strawberry root weevils (larvae and adult), cutworms, earwigs and sowbugs. Since the ingredients are an integral part of the bait and not merely mixed together, GO-WEST MEAL will remain effective longer and will resist washing away by rain and watering.

DIRECTIONS

SLUGS and SNAILS: Since these pests feed on your plants at night and are not generally seen during the day you may not realize you have an infestation unless you are able to recognize slug damage.

For best results begin applications as early as

February and continue baiting into the fall. Apply by broadcast method using 1 lb. of GO-WEST MEAL to 250 sq. ft. of area. Scatter bait lightly on ground so that it is barely visible. Do not place in piles.

Re-apply at two week intervals as long as slugs are present. The aroma of the metaldehyde will attract slugs from a surprising distance. Moist soil increases effectiveness. For effective control of slug eggs, use Lilly Miller GO WEST SLUG KILLER.

EARWIGS — CUTWORMS — STRAWBERRY ROOT WEEVILS — SOWBUGS:

Control these damaging pests by broadcasting GO WEST MEAL on the ground where insects are seen or damage to plants is noted. Begin baiting for these insects in April.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: May be harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash thoroughly after use. Keep out of reach of children and domestic animals. Avoid contamination of feed and foodstuffs.

IMPORTANT: Keep away from children, dogs and pets. Bait may be attractive to dogs. Confine pets during application to prevent them from believing they are being fed. Use and store under conditions where there will not be a hazard.

STATEMENT OF PRACTICAL TREATMENT

If swallowed, induce vomiting by administration of syrup of ipecac or under medical supervision, call a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to birds and wildlife. Birds feeding in treated areas may be killed. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE and DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

WARRANTY: The use of this material being subject to conditions beyond our knowledge and control, the seller makes no warranty of any kind, expressed or implied, concerning the effects of this product when not used in accordance with directions.
