JAN 30 2002

Dear Ms. Hickman:

Subject: Revised Labeling - Revised Sprayer Instructions  
Lilly/Miller Moss-Kil  
EPA Registration No. 802-508  
Your Submission Dated September 7, 2001

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following provisions:

- 1) Add an Environmental Hazards section to read "This product is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters."
- 2) In accordance with PR Notice 2001-1, revise the First Aid statement (Statement of Practical Treatment) to read as follows:

**"FIRST AID**

<b>If swallowed:</b>	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<b>If in eyes:</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>

Enclosure

Ready to Use  
Covers up to  
600 sq. ft.

**Lilly Miller.**

**MOSS OUT!**

**FOR ROOFS AND STRUCTURES**

*Non-staining, non-corrosive to galvanized gutters*

Prolongs the life of Roofs, Decks, Patios, & Walks, by destroying destructive moss.

ACTIVE INGREDIENT  
\*Zinc as metallic 29.6

INERT INGREDIENTS 70.4

\*Equivalent to 1% Zinc chloride

**DANGER**

**NET CONTENTS 1 QUART (946 ml)**

For best results, apply HOSE 'N GO® MOSS OUT! FOR ROOFS AND STRUCTURES just prior to the time when fall rains begin or in early spring. Moss growth can occur in nearly any location where dampness persists. Such areas include Roofs, Patios, Sidewalks and Foundations. Since moisture is essential, most moss growth appears during the fall, some in the winter and in the spring. Very little moss forms in summertime. Destroying existing moss is done most effectively during times when its growth is most rapid and when rain is not expected for several days. Controlling moss may add months, or years, of service to roofs, patios and such areas.

SHAKE WELL BEFORE USING. PLEASE READ ENTIRE LABEL. USE ONLY AS DIRECTED. OBSERVE ALL PRECAUTIONS.

**USE PRECAUTIONS:** Make certain none of the mixture runs from eaves or splashes on planted area below roofs. Where this possibility exists, cover shrubs, flowers or lawn before making application. Where treating walkways or patios, avoid application to adjacent lawn or plants. Product may damage painted and metal surfaces. Keep spray off these surfaces and other surfaces not intended for moss control treatment. Immediately wash off any spray that accidentally contacts these surfaces.

**COMPOSITION AND WOOD SHINGLES; GRAVEL; BRICK AND CEMENT WORK.**

**PREVENTIVE TREATMENT** - For preventing moss growth, or for use after sweeping or otherwise removing as much moss as possible.

Spray, using low water pressure, until container is empty over 600 square feet (20' X 30'). Apply to thoroughly wet moss. Repeat treatment as necessary (when new moss growth begins to appear)

**LILLY MILLER.**

**MOSS OUT!**

**FOR ROOFS AND STRUCTURES**

- For best results, apply prior to establishment of heavy moss infestations.
- After 3 to 5 weeks, dead moss may simply be hoed or swept off treated area.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only.

ACCEPTED  
with COMMENTS  
In EPA Letter Dated  
JAN 30 2002  
Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
of amended for the purpose of  
registered under EPA Reg. No. 802-508.

**FOR DESTRUCTION OF HEAVY MOSS GROWTH** - Where it is impractical to first remove moss by sweeping or other means, as indicated under PREVENTIVE TREATMENT.

Spray, using low water pressure, until container is empty over 200 square feet (10' X 20'). Make application slowly to thoroughly soak the moss and avoid run-off. On roofs, apply liberally to higher portions of roof moss. This allows rain to move some of the treatment material down through the moss patches.

After three to five weeks, depending on thickness of moss growth, the dead moss may be hoed, swept, or raked off the treated area. Preventive treatment with HOSE 'N GO® MOSS OUT! FOR ROOFS AND STRUCTURES should be made immediately to the cleaned area with repeat treatments just prior to the time the fall rains begin, or in early spring.

**STORAGE AND DISPOSAL**

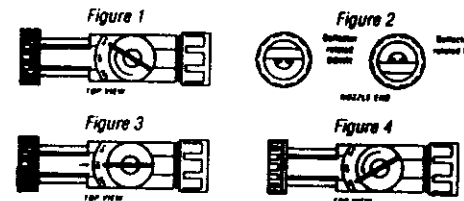

**STORAGE:** Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. **PRODUCT DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse container. Rinse thoroughly before discarding in trash.

USE PRECAUTIONS

**TO USE THIS SPRAYER:**

1. Shake container well
2. Remove the child-resistant closure and save it for resealing the container when you are finished.
3. Insert the dip tube of the hose-end applicator into the bottle and seal the applicator head tightly to the bottle.
4. Connect spray nozzle to garden hose.
5. Turn on the water from the faucet.
6. When you are ready to spray, turn the knob on top so that it points to the MIX position on the spray head. (Fig. 1)
7. The spray deflector on the front of the hose-end applicator can be rotated to give a stream or fan spray. (Fig. 2)

1. When you are finished spraying or if you have to stop spraying at any time, turn the knob back to the OFF position. (Fig. 3)
2. Turn off the water from the faucet.
3. Turn the knob to H2O then OFF, to drain the water from the hose.
4. Remove spray nozzle from hose. Remove hose-end from the container.
5. Reseal the container with the child-resistant closure. Rinse the hose-end applicator.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER: Corrosive.** Causes irreversible eye damage and skin burns. Harmful if swallowed, absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wear goggles. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Do not allow persons or pets in treated areas until sprays have dried.

**FIRST AID**

**IF SWALLOWED:** Call a physician or Poison Control Center. Do not induce vomiting. Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. **IF ON SKIN:** Wash with plenty of soap and water. Get medical attention. **IF IN EYES:** Hold eyelids open and flush with steady, gentle stream of water for 15 minutes. Get medical attention. **IF INHALED:** Remove victim from treatment area. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

**NOTICE:** Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
