LILLY/MILLER  
MOSS-OUT

For Moss in Lawns and Turf

ACTIVE INGREDIENT:

\* Ferric Sulphate, anhydrous .....35.0%

INERT INGREDIENTS: .....65.0% ✓

\*Equivalent to 9.75% Iron as Metallic

**ACCEPTED**  
MAR 14 1985  
Federal Insect  
Workshop for the product  
No. 802-509

Keep out of reach of children  
**CAUTION** ✓  
See back panel for additional cautions.

NET CONTENTS: ONE GALLON

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND  
DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed. Avoid contact with skin, eyes or clothing. In case of contact, flush with plenty of water; for eyes get medical attention. Wash hands thoroughly after using.

ENVIRONMENTAL HAZARDS ✓

This product is toxic to fish. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Moss grows on the soil surface in lawns where it competes with the turf, causing the grass to thin-out and creating an excessive build-up of thatch.

Shaded or poorly-drained acidic areas encourage moss growth especially if the turf is under-nourished. Apply Moss-Out to these areas when the moss is actively growing. Make applications as needed, beginning with the first fall rains, during warm, rainy, winter periods, or in early spring.

Encourage strong turf development by applying a Lilly/Miller UltraGreen or Super Rich fertilizer as directed. This will help prevent further moss growth.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### SHAKE WELL BEFORE USING

Please read entire label. Use only as directed. Observe all cautions and precautions.

#### MOSS IN LAWNS AND TURF

*Decreased  
to 1/2*

- ✓ 1. Mix at the rate of  $\frac{1}{2}$  pint MOSS-OUT in 3 gallons of water for each 125 sq. ft. to be treated.
2. Apply with plastic sprinkling can or hose-end sprayer. MOSS-OUT can corrode galvanized metal. To apply with LILLY/MILLER Six Shooter Hose-end Sprayer, fill sprayer jar to "full" mark with MOSS-OUT. Do not add water to sprayer jar. Then, spray over a 250 sq. ft. area, using low water pressure, until jar is empty.
3. When sprinkling or spraying mossy area, be sure to soak the moss growth thoroughly. Treated moss should turn a dark, or black color. Action is most rapid in warm, dry weather.
4. Rinse equipment with water after use.
5. To improve appearance of lawn or turf, rake out dead moss a few days after treatment.

#### USE PRECAUTIONS

MOSS-OUT is for use on lawn or turf only. Contact with concrete, brick, tile or painted surfaces can cause severe staining. Since MOSS-OUT can cause corrosion to galvanized metal, apply only with plastic sprinkling can or hose-end sprayer.

*Added*

Use Lilly/Miller Moss-Kil to control moss on roofs, patios and other surfaces. See Moss-Kil label for directions.

#### STORAGE AND DISPOSAL ✓

Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. Rinse equipment thoroughly with water after using. Do not reuse container. Rinse thoroughly before discarding and securely wrap original container in several layers of newspaper and discard in trash.

NOTICE: The use of this material being subject to conditions beyond our knowledge and control, the seller makes no warranty of any kind, express or implied, concerning the effects of this product, when not used in accordance with directions.
