NET CONTENTS 1 GALLON

MOSS-OUT kills moss in lawns so grass can grow into thick lush turf.

Moss grows on the soil surface in lawns where it competes with the turf. Shaded or poorly-drained acidic areas encourage moss growth especially if the turf is undernourished. Apply MOSS-OUT to these areas when the moss is actively growing. Make applications as needed, beginning with the first fall rains, during warm, rainy, winter periods, or in early spring. Encourage strong turf development by applying a Lilly/Miller ULTRAGREEN or Super Rich fertilizer as directed. This will help prevent further moss growth.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Lilly/Miller Moss-Kil to control moss on roofs, patios and other surfaces. See Moss-Kil label for directions.
