RE: Submission of Final Printed Label/Notification of administrative label changes
Including 1) new front panel graphic design elements, 2) update company
address, 3) addition of NPIC telephone no. & 4) omission of "1-800-CLEANUP"
from disposal text
EPA Registration Number: 802-509
Date of Submission: July 11, 2007

Dear Ms. Horton:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide
Registration Notice (PRN) 98-10 dated July 11, 2007, for the product Lilly/Miller Moss-Out.
The Registration Division (RD) has conducted a review of this request for its applicability under
PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label
submitted with the application has been stamped "Notification" and will be placed in our
records.

If you have any questions, please call me directly at 703-305-6249 or Joyce Edwards of
my staff at 703-308-5479.

Sincerely,

Linda Arrington

Packaged in Canada, Product of USA. Printed in USA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only.

What is this product? And what will it do?

This product is the fast, easy way to kill moss in lawns. Once moss is gone, the grass is free to grow and thrive. This easy-to-use container attaches right to your garden hose, so there's no mixing.

This product is for lawns only. Use Lilly Miller Moss Out! For Roofs and Structures (in the economical concentrate or convenient Hose 'n Go® or ready-to-use containers) for moss on roofs, sidewalks, or other surfaces.

How do I use this product?

When to use: Use this product anytime moss becomes a problem in your lawn. Moss grows most vigorously during the warm, rainy periods in spring and fall, but will grow all year round in some shady areas.

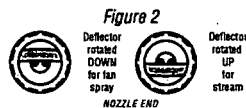

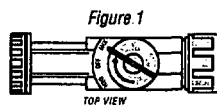

Spray as often as needed to keep moss from crowding out lawn grasses.

What to do: Mow the grass a bit shorter than usual to expose more of the moss. To get the most complete kill of the moss or when the moss is very thick, rake out as much as you can using a thatching rake or lawn rake. Spray this product evenly over the mossy areas.

To use this sprayer:

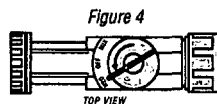

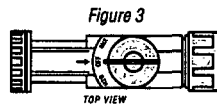

Sprays up to 20 feet!

1. Shake container well.
2. Remove the child-resistant closure and save it for resealing the container when you are finished.
3. Insert the dip tube of the hose-end applicator into the bottle and seal the applicator head tightly to the bottle.
4. Connect spray nozzle to garden hose.
5. Turn on the water from the faucet.
6. When you are ready to spray, turn the knob on top so that it points to the MIX position on the spray head. (Fig.1)
7. The spray deflector on the front of the hose-end applicator can be rotated to give a stream or fan spray. (Fig. 2)

To stop spraying:

1. When you are finished spraying or if you have to stop spraying at any time, turn the knob back to the OFF position. (Fig. 3)
2. Turn off the water from the faucet.
3. Turn the knob to H2O then OFF, to drain the water from the hose. (Fig. 4)
4. Unscrew spray nozzle from hose. Remove hose-end from container.
5. Reseal the container with the child-resistant closure. Rinse the hose-end applicator.

This bottle will cover 500 sq. ft. (20' x 25'). Spray slowly and allow this product to penetrate the moss. The moss will turn black within hours. After a few days, rake out the dead moss using a thatching rake or lawn rake.

What not to do: This product is for lawns only. Do not let this product contact any other surfaces. It will stain them. Do not allow this product to contact galvanized metal. Do not try to cover more lawn area than 500 sq. ft. with this container; it will not be effective. Do not allow adults, children or pets back onto the sprayed area until it has dried.

What will I see?

The moss in your lawn will turn black and die within hours. The grass will gradually fill in thin and bare spots. You can help it along by adding Lilly Miller Ultragreen®, Super Rich®, or Rapid Green™ lawn food, Lilly Miller® Super Sweet™ or Soil Sweet™ lime, and a Lilly Miller® grass seed blend that's right for your yard.

INSTRUCCIONES DE USO

Usar este producto de modo inconsistente con las indicaciones de su etiqueta constituye una violación de la ley federal. Sólo para uso doméstico.

¿Qué es este producto? Y ¿qué hace?

Este producto es el modo más rápido y fácil de eliminar el moho del césped. Una vez desaparecido el moho, el césped puede crecer y prosperar libremente. El envase fácil de usar se conecta a la manguera de jardín; por lo tanto, no existe mezcla.

Este producto sólo es para el césped. Utilice Lilly Miller Moss Out! Para techos y estructuras (en concentrado económico o convenientes envases Hose 'n Go® o de fácil uso) para el moho de los techos, aceras u otras superficies.

¿Cómo utilizo este producto?

Cuándo utilizar: Utilice este producto en cualquier momento en que el moho sea un problema en el césped. El moho crece con más vigor durante los periodos cálidos y lluviosos de primavera y otoño, pero crecerá todo el año en zonas con sombra.

Rocíe con la frecuencia necesaria para evitar que el moho crezca en el césped.

Qué hacer: Pude el césped un poco más de lo usual para exponer más el moho. Para eliminar a la mayor cantidad de moho o cuando el moho es muy tupido, pase un rastrillo de paja o para césped lo más que pueda. Rocíe este producto uniformemente en las zonas con moho.

Para usar este rociador:

¡Rocíe hasta 20 pies!

1. Agite bien el envase.
2. Retire el tapón de seguridad para niños y guárdelo para volver a cerrar el envase cuando usted termine.
3. Inserte el tubo de admisión del aplicador del extremo de manguera en el frasco y cierre firmemente el cabezal del aplicador en el frasco.
4. Conecte la boquilla del rociador a la manguera del jardín.
5. Abra la llave del agua.
6. Cuando se encuentre listo para rociar, gire la perilla superior de modo que señale la posición MIX (mezcla) en el cabezal del rociador. (Fig.1)
7. El deflector del rociador en el frente del aplicador con manguera puede girarse para rociar en chorro o como nube. (Fig. 2)

Para detener el rociado:

1. Cuando usted termine el rociado o si detiene el rociado en algún momento, gire la perilla a su posición original en la posición OFF (apagado). (Fig. 3)
2. Cierre la llave del agua.
3. Gire la perilla a H2O y luego a OFF, para drenar el agua de la manguera. (Fig. 4)
4. Desajuste la boquilla del rociador de la manguera. Retire la manguera del envase.
5. Vuelva a cerrar el envase con el tapón de seguridad para niños. Enjuague el aplicador con manguera.

Este frasco cubrirá 500 pies cuadrados (20 pies x 25 pies). Rocíe lentamente y permita que este producto penetre en el moho. El moho se volverá de color negro al cabo de horas. Luego de algunos días, rastrille el moho muerto usando un rastrillo de paja o para césped.

Qué no hacer: Este producto sólo es para el césped. No permita que este producto haga contacto con otras superficies, pues las manchará. No permita que este producto haga contacto con el metal galvanizado. No intente cubrir una zona de césped mayor a 500 pies cuadrados con este envase, pues no será eficaz. No permita que adultos, niños o mascotas regresen a la zona tratada hasta que se haya secado.

¿Qué notará?

El moho en su césped se volverá de color negro y morirá al cabo de horas. El césped gradualmente llenará las zonas rasas o descubiertas. Puede ayudar a la eficacia agregando fertilizante para césped Lilly Miller Ultragreen®, Super Rich®, o Rapid Green™, al Lilly Miller® Super Sweet™ o Soil Sweet™, y mezcla de semillas Lilly Miller® que son las adecuadas para su grama.

ALMACENAMIENTO Y ELIMINACIÓN

Guarde este producto en su envase original y consérvelo en una zona de almacenamiento con cerradura fuera del alcance de los niños y animales domésticos. Cierre la tapa firmemente después de cada uso. Evite el congelamiento. *Si el envase está vacío:* No vuelva a utilizar este envase. Coloque el envase en la basura u ofrézcalo para reciclado si hubiera. *Si el envase se encuentra parcialmente lleno:* Llame a su agencia local de desechos sólidos o al 1-800-CLEANUP para obtener instrucciones de eliminación. Nunca coloque el producto no utilizado debajo de ningún drenaje interior o exterior.

DECLARACIONES DE CUIDADO

DAÑO PARA LOS SERES HUMANOS Y ANIMALES DOMÉSTICOS

PELIGRO: Corrosivo. Causa daños irreversibles a los ojos. No permita el contacto con los ojos, la piel o la ropa. Use gafas protectoras. Perjudicial si se ingiere, inhala o absorbe a través de la piel. Evite aspirar el rociado. Qúitese y lave la ropa contaminada y lave la ropa antes de volver a usar. Lávese completamente con agua y jabón después de manipular el producto. No permita el ingreso de personas o mascotas a las zonas tratadas hasta que se haya secado el rociado.

Para emergencias médicas o preguntas acerca de este producto, llame al 1.800.498.5753. Para casos que no sean de emergencia, por ejemplo una información actualizada del producto, comuníquese con info@excelmktg.com.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin, or on clothing. Wear safety glasses. Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist. Remove contaminated clothing and wash clothing before reuse. Wash thoroughly with soap and water after handling. Do not allow persons or pets in treated areas until sprays have dried.

FIRST AID

Have product container or label with you when calling a poison control center or doctor, or going for treatment. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **If on skin or on clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.
