

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes eye irritation. Do not get in eyes. Avoid contact with skin or clothing. Harmful if swallowed, inhaled, or absorbed through the skin. Do not contaminate food or feed.

Practical Treatment: In case of eye contact, wash with water for at least 15 minutes and seek medical attention. In case of skin contact, wash with plenty of soap and water. Get medical attention if eye or skin irritation persists. If ingested, do not induce vomiting. Drink milk, egg whites, or gelatin; if not available, drink plenty of water. If inhaled, remove victim to fresh air.

Note to Physician: There is no specific antidote, if ingested, do not induce emesis and take care to avoid aspiration of stomach contents during gastric lavage. Give a saline laxative and supportive therapy.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of any body of water. Do not contaminate water used for irrigation or domestic purposes. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill, or store near heat or open flame.

DIRECTIONS FOR USE

FOR TOTAL VEGETATION CONTROL IN DRIVEWAYS, PATIOS, ALONG FENCES AND OTHER WASTE AREAS

Keep out of reach of children
WARNING

See label for use and handling instructions. Do not use in areas where children play.

NET CONTENTS: ONE QT.

Lilly/Miller NOXALL VEGETATION KILLER— for total vegetation control in Driveways, Patios, Paths, Parking Areas, along Fences and Curbs, around Buildings and under Graveled Pathways where plant growth has come through these surfaces

Prevent plant growth for up to one year. Lilly/Miller NOXALL VEGETATION KILLER is a nonselective product intended for use after dilution with water

DIRECTIONS FOR USE

READ ALL DIRECTIONS AND CAUTIONS BEFORE USE. Apply this product only as specified on this label. **DO NOT USE IN GARDENS, FLOWER BEDS, LAWNS, SHRUBS and TREES.**

Apply to bare ground or when vegetation growth is starting. Vegetation taller than 4-6 inches should be cut down. A second application may be necessary to control deep-rooted perennial weeds.

Mix one pint per 2½ gallons of water in sprayer or sprinkling can. If sprayer is used, work at lowest possible pressure and use large nozzle opening to give large droplets. Apply this spray mixture per 50 sq. ft. of area. Full wetting of weeds is essential for good control.

When sprinkling can or sprayer is empty, triple rinse and pour rinses on area just treated. Mix only the quantity needed and use immediately. Do not store leftover solution. To minimize lateral movement, sprinkle area lightly with a watering can immediately after application.

DILUTION TABLE

Amount of Lilly/Miller NOXALL VEGETATION KILLER to use	Dilute with water to make	Area Covered
1 pint	2½ gallons	50 sq ft
1 quart	5 gallons	100 sq ft

NOTE: Do not apply over roots of desirable plants, in cultivated areas or on ground that is to be cultivated, in greenhouses or near drip line of trees or shrubs. Do not use on slopes or in areas where runoff is likely to occur. Make application when air is calm to minimize drift to adjacent areas.

Do not use a weed killer sprayer to apply insecticides or fungicides.

Keep children and animals off treated areas until these areas dry.
