Lilly/Miller NOXALL VEGETATION KILLER - For total vegetation control in Driveways, Patios, Paths, Parking Areas, along Fences and Curbs, around Buildings and under Graveled Pathways where plant growth has come through these surfaces.

Prevents plant growth for up to one year. Lilly/Miller NOXALL VEGETATION KILLER is a nonselective product intended for use after dilution with water.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING. READ ALL DIRECTIONS AND CAUTIONS BEFORE USE. Apply this product only as specified on this label. 'DO NOT USE IN GARDENS, FLOWER BEDS, LAWNS, SHRUBS AND TREES.'

Apply to bare ground or when vegetation growth is starting. Vegetation taller than 4 - 6 inches should be cut down. A second application may be necessary to control deep-rooted perennial weeds.

Mix one pint per 2 1/2 gallons of water in sprayer or sprinkling can. If sprayer is used, work at lowest possible pressure and use large nozzle opening to give large droplets. Apply this spray mixture per 50 sq. ft. of area. Full wetting of weeds is essential for good control.

When sprinkling can or sprayer is empty, triple rinse and pour rinses on area just treated. Mix only the quantity needed and use immediately. Do not store leftover solution. To minimize drift movement, sprinkle area lightly with a watering can immediately after application.
