TOMATO & VEGETABLE GARDEN SPRAY may be used outdoors in vegetable gardens throughout the entire growing season or as a pre-harvest treatment when other insecticides are prohibited due to residue restrictions and use limitations.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use TOMATO & VEGETABLE GARDEN SPRAY throughout the growing season to prevent buildups of insect infestations. **SHAKE CAN BEFORE USING.** To spray—remove tab on front of spray cap. Hold can at a downward angle 2 to 3 feet from plants and spray, allowing fog to drift through the foliage. Fog will penetrate dense foliage, covering all plant surfaces. Move through garden areas covering 2 to 3 feet each second with fog. To prevent injury to plants, avoid visibly wetting foliage.

Apply in the early morning or late evening when the air is still. Contact insects directly whenever possible. Repeat treatment every 7-10 days or when insects reappear.

TOMATO & VEGETABLE GARDEN SPRAY may be applied on day of harvest on the following crops to control the listed insects:
