LILLY/MILLER
ULTRAGREEN MOSS CONTROL LAWN FOOD

Performance formula eliminates moss and promotes a lasting deep, dark green.

20-4-6

With 11.25% Iron

Coverage up to 4,000 square feet

KEEP OUT OF REACH OF CHILDREN

WARNING

See back panel for additional cautions

ACTIVE INGREDIENT:	
Ferrous Sulphate Monohydrate.....	35.4%
INERT INGREDIENTS:.....	64.6%

Net Weight 20 lbs.

803-541

The Performance Story

UltraGreen Moss Control Lawn Food is a special combination of plant foods and trace elements formulated to eliminate moss and promote an incredibly deep shade of green.

Quick release Nitrogen goes to work immediately after watering. Nitrogen helps grass to grow healthy and strong with a rich green color.

Time release Nitrogen is slowly and continuously released into the soil to build deep color through steady feeding.

Phosphoric acid is an important nutrient for early growth and root formation. It helps young plants grow strong.

Potash encourages a strong root system and helps build resistance to disease.

Sulphur is an essential element for protein movement. It helps nitrogen promote strong, sturdy growth.

Iron is important for moss control and chlorophyll production. It helps turn the lawn that incredibly deep shade of green.

For best results

Apply UltraGreen Moss Control Lawn Food at the normal rate when the lawn is dry. Mow lawn to expose existing moss prior to application. This allows the pellets to fall through the grass to the soil and go to work.

Water in to hasten the greening process.

For established lawns, apply at the rate of 20 lbs. per 4,000 square feet. This full feeding eliminates moss in the lawn, leaving it rich, green and thriving.

How to Spread Lawn Food:

Begin spreading by laying down two strips of lawn food at each end of lawn. Fill in remaining area as shown here. (Pic)

Make turns with the spreader CLOSED to avoid uneven coverage. (Pic)

Overlap previous wheel track slightly, as shown, to avoid gaps in coverage (Pic).

Close the spreader when you stop walking to avoid uneven coverage. Stopping and starting with the spreader box open will waste lawn food.

SPREADER SETTINGS

Application Rate	Lilly/Miller Spreader	Scotts PF-1	Central 50	Malmö	Turf King
ULTRAGREEN Moss Control Lawn Food 20 lbs./4,000 sq. ft.

Guaranteed Fertilizer Analysis:

Total Nitrogen (N)	20%
0.4% Ammoniacal Nitrogen (from Ammonium Phosphate)	
16.6% Urea Nitrogen (from Urea and Sulphur-Coated Urea)	
3.0% Coated Slow Release Urea Nitrogen (from Sulphur-Coated Urea)	
Available Phosphoric Acid (P ₂ O ₅)	2%
(from Ammonium Phosphate)	
Soluble Potash (K ₂ O)	4%
(from Muriate of Potash)	
Sulphur (S)	8%
(from Sulphur-Coated Urea and Metallic Sulphides and Sulphates)	
Iron (Fe)	11.25%
(from Iron Sulphate)	

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING

Causes eye irritation. Do not get in eyes, on skin, or on clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Harmful if swallowed. Do not contaminate feed or foodstuffs.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, wash with soap and water. If in eyes, flush with water for 15 minutes and get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of waste.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. Do not reuse bag. Securely wrap bag in several layers of newspaper and discard in trash.

USE PRECAUTIONS

This material may stain concrete and stone. Flush with water where spilling occurs.

NOTICE

The spreader settings given on this bag have been carefully determined by actual test in new equipment. Incorrect dial settings, walking speed, wear, spreader calibration and general condition of spreader can materially affect the rate of flow. Since these conditions are beyond our control, neither The Chas. H. Lilly Co. nor the retail dealer can guarantee exact coverage as indicated by the recommended dial settings.

Your Submission of May 25, 1984

The registration record for the product named above has been amended to include the additional product name listed below. The label must be identical with that of the basic label accepted under this registration except for product name.

Lilly/Miller UltraGreen Moss Control Lawn Food

1. Change "eliminates" wherever it occurs on the label to a term such as "controls." The term "eliminates" is too promising and therefore unacceptable.
2. Correct the inconsistency between the front panel fertilizer declaration (20-4-6) and the guaranteed fertilizer analysis.
