# MOSS OUT! LAWN GRANULES

Lawn moss is a common problem in many areas. Moss thrives in damp, shady lawns where the soil is acidic and drainage is poor. Under these conditions moss can spread into areas where grass once grew. If steps are not taken, moss can take over a lawn.

Fortunately, moss can be quickly killed with applications of MOSS OUT! LAWN GRANULES. Killing the moss gives grass a chance to "reclaim" the lawn. Since grass may be slow to fill in bare spots, we suggest reseedling with a quality Lilly Miller® grass seed.

MOSS OUT! LAWN GRANULES has another benefit: it turns grass a deep green, the color most of us want for our lawns.

MOSS OUT! LAWN GRANULES has 10% iron to kill lawn moss and green the grass. Because no fertilizer is added you get moss control and greening without excessive growth that requires frequent mowing.

### GUARANTEED ANALYSIS

Net Wt. 100%  
Deduct from Ferrous Sulfate  
Filled by weight not by volume. Product may settle after packaging.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only. Not for sale to the public.

For best results, apply MOSS OUT! LAWN GRANULES when the lawn is moist. Allow time to seep into soil before mowing. This allows the granules to fall through the grass to the soil and get to work. Water in to hasten the most killing action and greening process. Apply at the rate of 22 lbs. per 5,500 square feet for heavy moss infestations or 11 lbs. per 5,500 square feet for lighter moss infestations. One pound of Moss Out! Lawn Granules is equal to approximately 1/3 cup.

	22 lbs. per 5,500 sq. ft.	11 lbs. per 5,500 sq. ft.

**GETTING YOUR LAWN SPREADER**  
THESE SETTINGS ARE A GUIDE. They were determined by laboratory performance in test applications. The effectiveness of your spreader, your walking speed, the roughness of the lawn, and even the humidity rate affect how fast the product comes out. Check the flow rate. If the product appears to be coming out either slower or faster than you are covering the lawn, adjust the setting. Check the spreader when filling, for clogging or stopping.

**NEVER USE THIS PRODUCT ON SURFACES SUCH AS**  
ROADS, DRIVEWAYS, SIDEWALKS, PATHS, DRIVEWAYS AND CLOTHING. Always use protective gear. Avoid contact with skin, eyes, nose, mouth, and clothing. Do not eat, drink, or smoke while using. Do not use in areas where children or pets may be present. Do not use in areas where children or pets may be present.

**PRECAUTIONARY STATEMENTS**  
If swallowed, flush mouth with water. Do not induce vomiting. If not breathing, give artificial respiration. If breathing is difficult, call medical attention. If swallowed, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by drinking large amounts of water. If person is unconscious, do not give anything by mouth and do not induce vomiting.

**ENVIRONMENTAL PRECAUTIONS**  
Do not apply directly to water. Do not contaminate water when cleaning or equipment washwater.

**USE INSTRUCTIONS**  
If in eyes, flush eyes with plenty of water. Call a physician if irritation persists. If on skin, wash with plenty of soap and water. Get medical attention.

**COMMITMENT TO YOUR SATISFACTION**  
If you are not satisfied with the product, please return it to us. We will refund your money or replace the product, without cost to you. Please include proof of purchase, address and proof of purchase to the address at right.

NOTIFICATION  
NOV 22 2008

**TO SPOT TREAT MOSS AROUND ORNAMENTAL SHRUBS & IN FLOWER BEDS**

Apply anytime moss is actively growing and the soil is moist. Sprinkle granules over mossy areas. See diagram for application rate. Immediately after sprinkling granules, water treated areas thoroughly. Wait several days and carefully rake out dead moss. **IMPORTANT:** This product will burn foliage if applied directly to flowers or ornamental shrubs. If contact occurs, use a hose to wash this product off these plants right away.

Use the diagram above as a guide for uniform distribution of granules. Apply evenly, as shown.

**STORAGE AND DISPOSAL**

Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. Do not reuse container. Securely wrap container in several layers of newspaper and discard in trash.

To quickly and effectively kill moss in the entire lawn, use liquid Lilly Miller® Moss Out!™ For Lawns in the economical concentrate or convenient Hose 'n Go® bottle. Follow label directions.

Filled by weight not by volume. Product may settle after packaging.

If you are not satisfied with the performance of this product, simply send your name, address, and proof of purchase to Lilly Miller Brands, PO Box 2289, Clackamas, Oregon 97015, and we will be happy to refund your money.

**MOSS OUT! SPOT TREATER**

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND  
DOMESTIC ANIMALS**

**CAUTION:** Causes eye irritation. Do not get in eyes, on skin or clothing. Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing dust. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating or smoking.

**FIRST AID**

**IF IN EYES:** Flush eyes with plenty of water. Call a physician if irritation persists. **IF ON SKIN:** Wash with plenty of soap and water. Get medical attention. **IF INHALED:** Remove affected person to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention. **IF SWALLOWED:** Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only. Not for use indoors.

Kill unwanted patches of moss quickly and easily with MOSS OUT!™ SPOT TREATER. Moss competes with the turf and creates thin areas in the grass. Moss growing under ornamental shrubs and in flower beds is unsightly and can harbor insects. The best time to control moss is when it is actively growing. Moss grows most vigorously during rainy periods in spring and fall, but will grow all year in some shady or moist areas.

**IRON WILL STAIN. USE THIS PRODUCT ON LAWNS AND AROUND ORNAMENTAL SHRUBS & FLOWER BEDS ONLY. KEEP THIS PRODUCT OFF SURFACES SUCH AS SIDEWALKS, PATIOS, WOODEN DECKS, DRIVEWAYS AND CLOTHING.** Sweep concrete surfaces immediately to prevent staining. If concrete is wet when contact occurs, staining may be impossible to prevent.

**TO SPOT TREAT MOSS IN LAWNS**

**PREPARE THE LAWN:** Apply anytime the lawn is moist and moss is actively growing. Treatment in fall or early spring is most effective. Mow the lawn to expose moss and remove clippings.

**TREAT THE MOSS:** For spot treatment, sprinkle granules over mossy areas in lawn. Use diagram as a guide for application rate. This container will treat 600 square feet of lawn. Immediately after sprinkling granules, water treated areas thoroughly. A gentle rain, even immediately after spot treatment, will not significantly affect the moss-killing activity of this product. Wait several days until moss turns black and dies, then gently rake it out.

Since grass may be slow to fill in bare spots, we suggest reseeding with a quality Lilly Miller® grass seed. To reduce soil acidity which may contribute to moss growth, apply Lilly Miller® Super Sweet™ or Lilly Miller® Soil Sweet™ lime according to label directions. Apply lime anytime—before, during, or after moss control treatment.
