Registration Division (7505C)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg.  
Number:

802-565

Date of Issuance:

MAR 19 1999

NOTICE OF PESTICIDE:  
Registration  
X Reregistration

(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Lilly/Miller  
Hose 'n Go Weed  
& Grass Preventer

Name and Address of Registrant (include ZIP Code):

The Garden Grow Company  
6500 Hanna Road  
P.O. Box 100  
Independence, OR 97351

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. The following revision must be incorporated into the labeling before the product is released for shipment:

- 1) Revise the Net Contents statement to read "1 Pint, 8 Fluid Ounces".
- 2) Add the statement "Causes moderate eye irritation" to the beginning of the Precautionary Statements.
- 3) Within the Directions for Use (both Version A and B), a statement is repeated that instructs the user to re-spray every 4 months. In the Directions for Use (Version A), a statement also exists that instructs the user to not re-spray a treated area more than 2 times in one year. Since these statements may conflict each other, either the first statement should be revised to read such as "Re-spray every four months, not to exceed two applications per year, to keep the area weed free" or the restriction against more than 2 applications per year should be deleted.
- 4) Within the Directions for Use (Version B), revise the last sentence of the paragraph immediately following the captions for illustrations, currently reading "Water the area with clear water for about 1 hour after treating" to read "...for about 1/2 hour after treating."

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if inhaled or absorbed through the skin. Avoid breathing spray mist, ingestion and contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling. Wear a long-sleeved shirt, long pants, shoes and chemical resistant gloves when applying this product. Remove contaminated clothing and wash before reuse. Keep all persons, children and pets out of treated area until sprays have dried.

STATEMENT OF PRACTICAL TREATMENT

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists. If swallowed: Call a physician or Poison Control Center. If on skin: Wash with plenty of soap and water. Get medical attention if irritation persists. If inhaled: Remove individual to fresh air. If breathing difficulty occurs, provide cardiopulmonary resuscitation assistance and get medical attention.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply this product directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. Cover or incorporate spills.

DIRECTIONS FOR USE (Version A)

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only.

HOSE 'N GO WEED & GRASS PREVENTER prevents many weeds and grasses from growing in established ornamental beds, gravel walkways, driveways and around buildings. HOSE 'N GO WEED & GRASS PREVENTER can be sprayed onto the soil surface or over the tops of ornamentals and ground covers.

HOSE 'N GO WEED & GRASS PREVENTER will control the following weeds and grasses:

Euonymus  
Fatshedera  
Fir, Grand  
Fir, White  
Firethorn  
Forsythia, Border  
Gardenia  
Gazania, Treasureflower  
Geranium  
Ginkgo  
Golden-Rain Tree  
Heavenly Bamboo  
Holly, English  
Honeysuckle, Japanese  
Ice Plant  
Impatiens

Periwinkle, Dwarf  
Petunia  
Photinia  
Pieris japonica  
Pine  
Privet, Glossy  
Privet, Golden  
Privet, Japanese  
Redcedar, Western  
Rhododendron  
Rose  
Spruce, Colorado Blue  
Spruce, Norway  
Starjasmine, Chinese  
Sweetgum, American  
Viburnum, Sandankwa  
Xylosma  
Zinnia, Common

HOW TO APPLY: HOSE 'N GO WEED & GRASS PREVENTER will not kill existing weeds. Before applying HOSE 'N GO WEED & GRASS PREVENTER, remove any weeds, grass, fallen leaves and other plant debris. Rake area smooth, if necessary. HOSE 'N GO WEED & GRASS PREVENTER will cover 1000 sq. ft. of established annual and perennial flower beds, ground covers, ornamental beds, gravel walkways, driveways, etc.

Over application can cause damage to shrubs, trees and groundcovers. Do not apply to steep areas where runoff is possible. Do not use on dichondra or turfgrasses. Do not plant grass or shallow-rooted flowers and groundcovers (less than 4") in treated areas for 4 months following treatment. To prevent weed growth from occurring, do not disturb surface after treatment. Do not apply to or around vegetables. Respray every 4 months to keep the area weed free. (Do not respray a treated area more than 2 times in one) year.

To prevent staining avoid application to fences, sidewalks, patios, cement blocks, stucco or painted surfaces. If these surfaces are accidentally sprayed, hose off with water. May stain clothing.

#### SHAKE WELL BEFORE USING.

1. Connect spray nozzle to garden hose. Be sure valve is in "off" position.
2. Remove bottle cap and screw bottle onto nozzle. Turn on water.
3. Switch valve to "on" position to start flow of water. Use valve to shut off flow of water at any time.
4. Spray directly over area requiring application evenly and uniformly.
5. After application, turn on sprinkler or irrigation system for about 1 hour. Do not allow material to run off treated area.

#### DIRECTIONS FOR USE (Version B)

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only.

What is this product? And what will it do?

Hose 'n Go Weed & Grass Preventer is the easy way to have beautiful, weed-free flower beds all year round. Once you've cleaned out the weeds and grass already growing around your flowers, shrubs and trees, Hose 'n Go Weed & Grass Preventer keeps them from coming back. And it lasts up to 4 months!

Now you can plant your zinnias or pansies or marigolds, spray with Hose 'n Go Weed & Grass Preventer, then sit back and watch them grow. No more hands-and-knees weeding for you.

This easy-to-use container attaches right to your garden hose, so there's no mixing. Use only what you need, then put it away for next time.

#### How do I use this product?

When to use: For established beds and borders, you can use Hose 'n Go Weed & Grass Preventer anytime throughout the growing season. But, the area must be free of weeds and grass, before you spray. Re-spray every 4 months to keep the areas free of weeds.

Newly-planted flowers, shrubs or trees have to settle in. Wait 1 to 2 weeks after planting before using Hose 'n Go Weed & Grass Preventer. After that, respray every 4 months to keep the area weed free.

What to do: Shake well before using. Hose 'n Go Weed & Grass Preventer won't work on the weeds and grasses already growing. So, you have to remove them before you get started. Spray them with Lilly/Miller Knock-Out Weed & Grass Killer or pull them out by hand.

When you are finished preparing the area, you can spray.

#### How to use this sprayer:

1. Before you start, the black knob should be pointing away from the triangle on the spray head. If it cannot be turned, push it out from the back. The red knob should be in the OFF position.
2. Shake the container well and attach it to your garden hose.
3. Turn on the water from the faucet.
4. When you are ready to spray, turn the black knob so that it points at the triangle on the spray head and push it in.
5. Turn the red knob one-quarter turn and begin spraying.
6. When you are finished spraying or if you have to stop spraying at any time, turn the red knob back to the OFF position.
7. Push the black knob out from the back and turn it. This seals the container.
8. Turn off the water from the faucet.
9. Turn the red knob ON then OFF, to drain the water from the hose.
10. Unhook the container from the hose and store it carefully.

#### Captions for illustrations:

1. Before you start
2. When you are ready to spray
3. When you are finished

Spray Hose 'n Go Weed & Grass Preventer evenly over the soil and the plants (yes, right over the top of the leaves), but avoid areas where bulbs are planted. The orange color lets you see where you have sprayed and prevents skips or overlaps. This whole bottle will cover 1,000 sq. ft. (20'x 50'). One quarter of the bottle (see markings on the side) will cover 250 sq. ft. (10'x 25' or a border 5'x 50'). Water the area with clear water for about 1/2 hour after treating.

For barkdust areas or other mulch covers: Wet the area well with clear water before spraying with Hose 'n Go Weed & Grass Preventer. Water again afterwards.

What not to do: Do not use Hose 'n Go Weed & Grass Preventer around vegetables, fruits or other edible plants. Do not use on lawns or

dichondra. Do not treat steep areas, where product may move downhill. Do not use over newly planted ice plant. Wait several weeks, until ice plant is well rooted, before applying Hose 'n Go Weed & Grass Preventer. Do not respray a treated area more than 2 times in one year.

Do not use this product around these plants; they will be damaged: Douglas Fir, Techny arborvitae, Eastern (Canada) hemlock, or Slender deutzia.

Once an area is treated, do not dig in or otherwise disturb the soil surface. Weeds may pop up. Do not plant seeds, seedlings or other shallow rooted plants in a treated area until 4 months have passed. They may be damaged.

Hose 'n Go Weed & Grass Preventer is orange in color. It will stain paint, stucco, wood, cement, brick, clothing and many other surfaces around the house. Do not allow this product to contact any of these.

What will I see?

You will see beautiful flower beds with no weeds to spoil the view. You will see clean, tidy shrub beds, and weeds will no longer spring up around trees in the yard.

#### STORAGE AND DISPOSAL

Keep from freezing. Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. Rinse equipment thoroughly with water after using. Do not reuse container. Rinse thoroughly before discarding and securely wrap original container in several layers of newspaper and discard in trash.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
