3. In regard to the storage stability data, you must submit the results of analyses for the active ingredients from three production batches of your product. Test the product at the beginning when freshly prepared, and at monthly intervals for a period of 1 year under storage conditions similar to those to which the product will be exposed during marketing and distribution in channels of trade, and during use. On an interim basis the Agency will accept the results of an accelerated storage stability study conducted with your-product. Submit the results from three batches maintained at 50 °C and analyzed at the beginning, and at 30 and 60 days. The completed study must be submitted within 14 months from the date of Registration Notice.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
