	TERM OF ISSUANCE Conditional	
	NAME OF PESTICIDE PRODUCT Lilly/Miller Tomato Fruit Set	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

The Chas. H. Lilly Company  
 7737 NE Killingsworth  
 Portland, OR 97218

**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) providing that you:

1. Submit to all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 802-584" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a full description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 3(c). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of this label is enclosed for your records.

Richard L. Mountfort

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

SEP 6 1983

Under the Federal Insecticide, Fungicide, and Plant Growth Regulator Act as amended, for use as a tomato set aid registered under EPA Reg. No. 802-584

LILLY/MILLER  
TOMATO FRUIT SET

Alternate name: Lilly/Miller Tomato Set

ACTIVE INGREDIENT:  
p-Chlorophenoxyacetic acid . . . . 0.005%  
INERT INGREDIENTS . . . . 99.995%

Keep out of reach of children  
CAUTION  
See side panel for additional precautionary statements.

NET CONTENTS 8 FL. OZ.

During the early part of the season, cloudy days, cool nights and short periods of sunlight can cause poor pollination of the first tomato flowers, resulting in fewer fruit being set, or fruit not set early enough to ripen properly.

TOMATO SET aids the early tomato flowers to set fruit even under adverse weather conditions.

Avoid excessive wetting of blossoms. A light application is all that is necessary. Apply just a short burst of spray. Avoid soaking the flowers, leaves or stems as this may cause imperfectly formed fruit. Seedless tomatoes are produced by spraying fruit blossoms as soon as they open before pollination occurs, otherwise fruits will have seed.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Shake well before using.

1. Point spray nozzle toward plant. Hold container at least 10 to 15 inches from blossoms.
2. Earliest tomatoes are secured by making a spot application to the first cluster when most of the flowers in the cluster are open before pollination.
3. For general application, spray each cluster when most of the flowers are open. Apply just a short burst of spray to each cluster.
4. Repeat spray at 10 day intervals to set flowers opening later, but do not make more than 5 applications during the season.

USE PRECAUTIONS: Do not spray the small flower buds that are just developing. This may cause them to drop before setting fruit. Do not can too close to blossoms or spray them too long as some temporary damage to foliage or buds may occur. This can be avoided by holding spray 10 to 15 inches from blossoms, giving them a short burst of spray and timing spray application as above.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid contact with skin, eyes and clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Wash hands after use.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target area.

**PHYSICAL/CHEMICAL HAZARDS**

Do not use, pour, spill or store near heat or open flame.

**STORAGE AND DISPOSAL**

Store in original container out of reach of children and domestic animals. Do not reuse container. Rinse thoroughly before discarding. Securely wrap original container in several layers of newspaper and discard in trash.

**NOTICE:** Follow directions carefully. Timing and method of application, weather and crop conditions, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
