How do I use this product?

When to use: You will get better results if you spray when the temperatures are warm and the lawn is well watered. Pick a day when rain is not expected for at least 24 hours. For new lawns, wait until the grass has been mowed 2 or 3 times and is over 2 inches tall before trying to kill the weeds.

What to do: Water the lawn well 1 to 2 days before you spray.

TO USE THIS SPRAYER:

Sprays up to 20 feet!

1. Shake container well.
2. Connect spray nozzle to garden hose.
3. Turn on the water from the faucet.
4. When you are ready to spray, turn the knob on top so that it points to the MIX position on the spray head. (Fig. 1)
5. The spray deflector on the front of the hose-end applicator can be rotated to give a stream or fan spray. (Fig. 2)

TO STOP SPRAYING:

1. When you are finished spraying or if you have to stop spraying at any time, turn the knob back to the OFF position. (Fig. 3)
2. Turn off the water from the faucet.
3. Turn the knob to H2O then OFF, to drain the water from the hose. (Fig. 4)
4. Unscrew spray nozzle from hose.

OR

9/10

TO USE THIS SPRAYER:

1. Make sure knob control lever is in the OFF position. Shake well and attach to hose.
2. Turn water on at faucet, aim nozzle toward lawn and turn control lever to ON to begin spraying. The product will automatically siphon and mix with water.
3. When finished turn control lever to OFF position. Turn faucet off. Discharge residual water pressure by turning control lever ON and OFF again.

Spray this whole bottle over 5,000 sq. ft. (50' x 100'). One quarter of the bottle (see markings on the side) will cover about 1,250 sq. ft. (25' x 50'). Let the spray dry before you let adults, children or pets onto the lawn.

Wait for 24 hours after you spray, before watering the lawn. Then continue to water the lawn as needed. After 4 weeks, you may re-seed any bare spots where weeds have died.

What not to do: Do not use this product on your lawn more than two times in one year. Do not allow spray mist to drift onto vegetables, fruits, flowers, ornamental shrubs and trees, or any other desirable plants. They will be damaged. Do not water the lawn for 24 hours after spraying. Do not spray Hose 'n Go® Weed & Feed in areas where shrub or tree roots may be located, or within the dripline.

Do not use this product on newly seeded lawns or on carpetgrass, dichondra, St. Augustinegrass, Centipedegrass, closely cut bentgrass, or clover lawns or turf. Do not spray when it is over 85 degrees. Do not reseed or overseed the area for 4 weeks.

What will I see?

Within 10 days you will see the leaves begin to curl and twist. Weeds will gradually die, taking several weeks to completely disappear. In cool or very hot weather, weeds may die more slowly.

STORAGE AND DISPOSAL

Store this product in its original container and keep out of reach of children and domestic animals. *If empty:* Do not reuse this container. Place in trash or offer for recycling if available. *If partly filled:* Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.
