U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
802-591

Date of Issuance:
JUL 22 1996

NOTICE OF PESTICIDE:
 Registration
 X Reregistration

Term of Issuance:
Unconditional

Name of Pesticide Product:
Lilly/Miller Moss-Kil
Granules

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

The Chas H. Lilly Co.
7737 NE Killingsworth
Portland, OR 97218

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted". This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain registration of your product.

NET WEIGHT 3 LBS. (1.3 kg)

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage. Harmful if swallowed, absorbed through skin or inhaled. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing dust or spray mist. Wear goggles. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Do not allow persons or pets in treated areas until dusts have settled or sprays have dried.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Do not induce vomiting. Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. IF ON SKIN: Wash with plenty of soap and water. Get medical attention. IF IN EYES: Hold eyelids open and flush with steady, gentle stream of water for 15 minutes. Get medical attention. IF INHALED: Remove victim from treatment area. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For best results, apply MOSS-KIL GRANULES just prior to the time when fall rains begin or in early spring. Moss growth can occur in nearly any location where dampness persists. Such areas include Roofs, Patios, Sidewalks and Foundations. Since moisture is essential, most moss growth appears during the fall, some in the winter and in the spring. Very little moss forms in summertime. Destroying existing moss is done most effectively during times when its growth is most rapid and when rain is not expected for several days. Controlling moss may add months, or years, of service to roofs, patios and such areas.

COMPOSITION AND WOOD SHINGLES; GRAVEL; BRICK AND UNPAINTED CEMENT WORK.

PREVENTIVE TREATMENT - for preventing moss growth, or for use after sweeping or otherwise removing as much moss as possible.

1. MOSS-KIL GRANULES can be applied directly from container as a powder. Apply at the rate of 3 lbs. to 3000 square feet of area.
2. To apply as spray, use a sprinkling can or tank sprayer. Slowly add 3 lbs. MOSS-KIL GRANULES to 10 gallons of water (1 lb. to 3 1/3 gallons), stirring continuously. Spray to thoroughly wet surface, using 1 gallon of mixture to 300 sq. ft. of area.
3. Repeat treatment as necessary (when new moss growth begins to appear).

FOR DESTRUCTION OF HEAVY MOSS GROWTH - where it is impractical to first remove moss by sweeping or other means, as indicated under PREVENTIVE TREATMENT.

1. MOSS-KIL GRANULES can be applied directly from container as a powder. Apply at the rate of 3 lbs. to 600 square feet of area.
2. To apply as spray, use a sprinkling can or tank sprayer. Slowly add 3 lbs. MOSS-KIL GRANULES to 6 gallons of water (1 lb. to 2 gallons), stirring continuously. Spray to thoroughly wet moss, using 1 gallon of mixture to 100 sq. ft. of area. Make application slowly to thoroughly soak the moss and avoid run-off.
3. On roofs, apply liberally to higher portions of roof moss. This allows rain to move some of the treatment material down through the moss patches.
4. After three to five weeks, depending on thickness of moss growth, the dead moss may be hosed, swept, or raked off the treated area.

PREVENTIVE TREATMENT with MOSS-KIL GRANULES should be made immediately to the cleaned area with repeat treatments just prior to the time the fall rains begin, or in early spring.

USE PRECAUTIONS: Make certain none of this product runs from eaves or splashes on planted area below roofs. Where this possibility exists, cover shrubs, flowers or lawn before making application. Where treating walkways or patios, avoid application to adjacent lawn or plants. If contact occurs, wash material off plants immediately.

MOSS-KIL GRANULES may damage painted and metal surfaces, and concrete roof tiles. Keep this product off these surfaces and other surfaces not intended for moss control treatment. Immediately wash off material that accidentally contacts these surfaces.

STORAGE AND DISPOSAL

STORAGE: Store this product in its original container and keep in a locked storage area out of reach of children and domestic animals. PRODUCT DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash. CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
