DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only. Not for use indoors.

WHAT IS THIS PRODUCT? AND WHAT WILL IT DO?

HOSE 'N GO® BLACKBERRY & BRUSH KILLER kills blackberry vines plus many woody plants and deep-rooted perennial weeds. It kills completely—above and below the ground—so stumps and roots won't regrow.

The easy-to-use sprayer attaches right to your garden hose. There's no mixing. Use only what you need, then put it away for next time.

Use HOSE 'N GO® BLACKBERRY & BRUSH KILLER to kill these plants:

- Alder, Ash, Aspen, Beech, Birch, Blackberry, Box Elder, Cascara (Buckthorn)
- Cherry, Chinquapin, Choke Cherry, Cottonwood, Dogwood, Elderberry, Elm,
- Hawthorn, Honeysuckle, Horsetail Rush (Field), Kudzu, Locust, Madrone, Maples (except Bigleaf and Vine), Mesquite, Mimosa, Mulberry, Oaks, Poison Ivy, Poison Oak, Poplar, Raspberry, Scotch Broom, Sumac, Sweetgum, Tanoak, Thimbleberry, Wild Grape, Wild Rose, Willow.

HOW DO I USE THIS PRODUCT?

When to use: Spray brush anytime it is actively growing: In spring, after leaves are fully open; in summer, when there is sufficient water; or in the fall before leaves begin to change color.

What to do: There is no mixing or measuring with HOSE 'N GO® BLACKBERRY & BRUSH KILLER. See the section "TO USE THIS SPRAYER" for operating instructions.

Spray when the air is calm and there is no wind. Wet the brush completely with the spray. This product works through the leaves and bark—excess spray that runs off onto the soil will not improve control. After leaves have dropped off (4 - 6 weeks after spraying), cut down the brush and dispose of it. Once the brush is gone, the area may be replanted.

What not to do: DO NOT spray when it is windy. DO NOT allow spray mist to drift onto vegetables, flowers, ornamental shrubs and trees, small fruits, fruit trees, or any other desirable plants. They will be damaged. DO NOT use this product around vegetables, fruits or other plants you eat. DO NOT spray when rain is expected within 24 hours. DO NOT water the area for 24 hours after spraying or effectiveness may be reduced.

TO USE THIS SPRAYER:

Sprays up to 20 feet!

1. Shake container well.
2. Connect spray nozzle to garden hose.
3. Turn on the water from the faucet.
4. When you are ready to spray, turn the knob on top so that it points to the MIX position on the spray head. (Fig. 1)
5. The spray deflector on the front of the hose-end applicator can be rotated to give a stream or fan spray. (Fig. 2)

Figure 2

STORAGE AND DISPOSAL

Store this product in its original container out of reach of children and domestic animals. Do not reuse container. Securely wrap original container in several layers of newspaper and discard in trash.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Causes eye irritation. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Do not allow children or pets onto treated areas until sprays have dried. Remove saturated clothing and wash before reuse.

FIRST AID

If Swallowed: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. **If Inhaled:** Remove affected person to fresh air. Give artificial respiration if indicated. **If In Eyes:** Flush eyes with plenty of water for at least 15 minutes. Get medical attention. **If On Skin:** Wash thoroughly with soap and water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.
