

Richfield Weedkiller "A" Lite

For information on the type of equipment to use, contact your local distributor. Do not use Richfield "A" Lite on plants which are not listed on the label.

Recommendations

Richfield Weedkiller "A" Lite is used for non-selective herbicide control of grasses and broadleaf weeds in areas such as right of way, fence lines, ditch banks and similar areas at 50 to 150 gallons per acre with best results obtained when weeds are young with actual volume per acre dependent upon height and density of weeds.

Richfield Weedkiller "A" Lite is used for non-tillage cultivation of tree, vine, fruit and truck crops such as almond, apricot, avocado, citrus, date, olive, peach, pear, plum and walnut, grapes, blackberries, raspberries and strawberries before they appear on vines, and tomatoes. Use as directed spray when weeds are 1 to 2 feet high. Do not allow spray to come in contact with desirable foliage. Spray volume up to 100 gallons per acre. Actual volume dependent upon height and density of weeds.

Richfield Weedkiller "A" Lite is used for non-tillage control of weeds in alfalfa and clover at 15 to 45 gallons per acre to 14 days before harvest. For the control of potatoes apply 10 to 4 gallons per acre 14 days prior to harvest when foliage starts to turn brown. When used as a desiccant, Richfield Weedkiller "A" Lite may be applied either by ground or by aircraft.

Richfield Weedkiller "A" Lite is used for annual weed control in alfalfa at 15 to 45 gallons per acre as a dormant application to stands which have been established for years or more and can be applied by ground or by aircraft.

When used as directed, Richfield Weedkiller "A" Lite will top kill annual and perennial weeds and grasses such as mustard, ragweed, nettle, foxtail, Barnyard and Johnson grass, Russian thistle and pigweed.

Directions

Richfield Weedkiller "A" Lite may be applied by ground or by aircraft at rates in accordance with label recommendations.

Use Richfield Weedkiller "A" Lite in areas where spray equipment does not have mechanical agitation. When equipment has mechanical agitation, Richfield Weedkiller "A" Lite may be diluted with 10 to 20% water. Dilution will depend on foliage age and density of weeds. See label for details.

Caution - Keep out of reach of children

Avoid skin contact. If skin contacted, wash with warm water and soap. Avoid inhalation of spray. Harmful if swallowed. Do not get in eyes. In case of contact, flush eyes with plenty of water. If irritation persists, get medical attention.

Richfield Weedkiller "A" Lite is not for use on plants which are not listed on the label. Do not use Richfield Weedkiller "A" Lite on plants which are not listed on the label.

Do not apply when wind is blowing directly into desirable foliage.
