~~OF HEPTACHLOR EQUIVALENT U.S.D.A. Reg. No. 827~~

GENERAL DIRECTIONS - For the control of Wireworms, White Fringed Beetles or Rootworms on corn, use this product at the rate of 200 lbs. per acre (1-lb. of actual Heptachlor) applied in the row before planting or with fertilizer attachment at the time of planting along both sides of the seed but not in direct contact with the seed; or as a broadcast treatment use 400 to 600 lbs. per acre (2 to 3-lbs. of actual Heptachlor) and disk into the soil promptly.

CAUTION: KEEP OUT OF REACH OF CHILDREN

CONTAINS HEPTACHLOR

Hazardous if swallowed, inhaled or absorbed through the skin. Avoid prolonged or repeated inhalation of dust or contact with skin and eyes. In case of contact with skin or eyes, flush with plenty of water; for eyes, get medical attention. Wash thoroughly with soap and water after handling this material and before eating or smoking. Do not apply or allow to drift to areas, occupied by unprotected children, other humans, or beneficial animals.

This product is toxic to fish and wildlife - do not contaminate streams, lakes or ponds with this material. Do not apply where runoff is likely to occur.

Avoid contamination of feed and footstuffs. To prevent serious injury to soil and crops, apply this product only as specified on this label. Do not reuse empty container. Clean up spillage and dispose of empty containers by burying or incineration. Stay away from smoke and fumes.
