Follow instructions carefully. Timing and care of application, weather and lawn conditions, and other factors influencing the results obtained by the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with the directions and precautions given herewith.

### USE DIRECTIONS

Apply DURSBAN .5 G granular insecticide uniformly to home lawns and other ornamental and recreational turf grass areas using any hand or power operated gravity or rotary type spreader designed for application of granular materials. Treat when insects first appear using DURSBAN .5 G at the rate of 200 pounds per acre. To help obtain uniform distribution, apply one-half required amount of product in one direction; then apply the balance at a right angle. Immediately after application sprinkle the turf with 1300 gallons of water per acre so as to wash the granules into the zone of insect infestation. Consult the following table to determine amounts of DURSBAN .5 G and water needed for smaller sized areas. Re-treat as necessary.

### RATES TO USE

Area to be treated	Pounds of DURSBAN .5 G	Gallons of Water to sprinkle on Turf after treatment
1000 sq. ft.	5	30
5000 sq. ft.	25	150
10700 sq. ft.	50	325

### USE PRECAUTION

Keep children and pets off treated areas until this material is washed into the soil and grass is dry.

This product is toxic to fish, birds and other wildlife. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product as specified on this label. Dispose of empty container and wastes by burning or burying in non-croplands away from domestic water supplies.
