OL' PRO is a cleaner, disinfectant and sanitizer — designed for institutional use such as in Hospitals, Nursing Homes, Schools and Athletic Departments, where housekeeping will be of prime importance in reducing the hazards of cross-infection from the inanimate environment. OL' PRO can provide the assurance you need in this area, when used as directed. Effective against Staphylococcus aureus, Salmonella choleraesuis and Pseudomonas aeruginosa. This product, when used on environmental, inanimate hard surfaces at 2 ounces per gallon of water, is effective against Influenza A₂, Herpes Simplex, Adenovirus type 2 and Vaccinia Viruses. It is also effective against pathogenic fungi, Trichophyton interdigitale, the organism which causes Athletes Foot.

USE DIRECTIONS:

Use 2 ounces OL' PRO per gallon of water

For best results, use with a cloth, mop or spray for cleaning, disinfecting and deodorizing of walls, floors, sink tops, tables, rest rooms, bed pans, telephones, shower stalls and operating rooms.

If used for sanitization of food equipment or food contact items, limit the level of active quaternary to 200 ppm (2.8 oz per 5 gallons).

No Rinse Required.

For heavy soil or organic matter, a precleaning step is recommended.

WARNING

Keep Out of Reach of Children. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful, if swallowed. Avoid contamination of food. Avoid breathing of spray mist.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution; or, if these are not available, drink large quantities of water. Call a physician.

Rinse empty container thoroughly with water and discard.
