

**PRECAUTIONARY STATEMENTS**  
**DANGERS TO HUMANS AND DOMESTIC ANIMALS**  
**DANGER**

Irritant. Causes burns to skin and eyes. Do not get in eyes, on or on clothing. Wear rubber gloves when handling. Harmful or fatal if swallowed. Avoid breathing fumes. Wash and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling.

**ENVIRONMENTAL HAZARD**

Product is acidic. Do not discharge into lakes, streams, ponds or waters unless in accordance with NPDES permit. For guidance, contact the regional office of EPA.

**PHYSICAL OR CHEMICAL HAZARD**

Highly acidic. Avoid contact with alkaline materials, contact with oxidizing materials (e.g. mild steel and aluminum) may produce flammable hydrogen gas. Reacts violently with strong bases. Reacts with water.

**STORAGE AND DISPOSAL**

Keep container closed when not in use. Do not contaminate water, food or feed by storage or disposal. Rinse equipment. In case of spill, flood area with large quantity of water. Wash to sewer or collection vessel. Wastes resulting from use of product may be disposed of on site or at an approved waste disposal site.

**Statement of Practical treatment:**

In case of skin contact, immediately flush with plenty of water for at least 15 minutes, get medical attention if irritation persists. In case of eye contact, flush with plenty of water for 15 minutes, get medical attention if irritation persists. Remove clothing if soiled. Promptly flush contaminated contact lenses with water. If swallowed, do not induce vomiting. Do not lie down. Get medical attention if irritation persists. If you are pregnant, consult your physician.

**DIRECTIONS**  
 TO USE THIS PRODUCT IN  
 DISINFECTING WATER

FOR SANITIZING TANKS, PIPE LINES, OR BEVERAGE, MEAT AND POULTRY PROCESSING

1. Clean equipment immediately after use.
  - a. Preflush or prescrape and when necessary, use water to remove gross food particles.
  - b. Wash thoroughly with recommended amount of water.
  - c. Rinse with clean tepid water.
  - d. Sanitize with a solution of AFCO TOPS (200ppm) by circulation or immersion. Let solution remain in contact with equipment completely and air dry. Do not rinse equipment with water. Fresh sanitizing solution should be used every 24 hours or more often if the solution becomes cloudy.
