

SPECIAL PROPERTIES

AFCO SAN-I-LUBE is a moderate foaming lubricant especially formulated to give clear solutions in high water dilutions, thereby eliminating the lime soap precipitate that clogs the dispensing equipment resulting in costly shutdowns of production.

IMPORTANT NOTE:

We recommend that an AFCO representative be present when the initial application of SAN-I-LUBE is started. He will determine and instruct your supervisors as to the proper dilutions required for your conveyor chains.

CAUTION:

May be harmful if swallowed. May cause eye or skin irritation. May cause skin sensitization. Avoid contact with skin or eyes. In case of contact, flush eyes or skin with plenty of water for 15 minutes. If irritation persists, get medical attention. Avoid contamination of foodstuffs.

Do not use, pour, spill or store near heat or open flame.

Rinse empty container thoroughly with water and discard.

AFCO
SAN-I-LUBE
LUBRICANT

CLEANER - SANITIZER - DEODORANT

Recommended for the lubrication of conveyor chains in Soft Drink, Bottling Plants, Breweries, Dairies and Food Plants.

ACTIVE INGREDIENTS:

3,5-Dimethyltetrahydro-2H,	
1,3,5-Thiadiazine-2-thione	0.5%
