NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c) (7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) and section 4 when the Agency requires all registrants to similiar products to submit such data.
2. Add the phrase "EPA Registration No. 833-74" to your label before you release the product for shipment.

Submit one copy of the final printed labeling before you release the product for shipment. Refer to A-79 Enclosure for a further description of final printed labeling.

A stamped copy of the label is enclosed for your records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Note: This product degrades over time and increase dosage, as necessary, to maintain available chlorine.

SANITIZATION OF CONTACT SURFACES

Rinse Method - A solution of this product may be used in the sanitizing process if available. Solutions containing 100 ppm available chlorine should be adjusted periodically to insure that the concentration does not drop below 50 ppm. Prepare a sanitizing solution by thoroughly rinsing the product with 5 gallons of water. To prepare a sanitizing solution of this product with 5 gallons of water, add approximately 200 ppm available chlorine.

Clean equipment surfaces by using this product. Use, rinse all surfaces thoroughly with this solution, maintaining contact for 2 minutes. If solution contains less than 200 ppm available chlorine, as determined by test kit, discard the solution or add more product to maintain a 200 ppm residual. Do not use this solution after treatment and do not reuse.

Sanitizers used in automatic cleaning systems for general cleaning but may be used for other purposes.
