

Directions

When spraying, use a pump sprayer or atomizer. Spray thoroughly, but do not saturate. Spray with the nozzle 12 to 18 inches from the surface.

For indoor use, spray on surfaces, walls, windows, doors, and ceilings. For outdoor use, spray on lawns, shrubs, and trees.

For control of ants, spray on the ground around the base of the infested structure. For control of waterbugs, spray on the water surface.

For control of flies, spray on the walls and ceiling of the infested area. For control of mosquitoes, spray on the water surface.

Caution: Do not use on food or food containers. Do not use on children's toys. Do not use on pets.
