### ACTIVE INGREDIENTS

Rotenone	-----	1.0%
Other Derris Resins	-----	2.0%

### INERT INGREDIENTS

-----	97.0%
-----	100.0%

Dust at rate of 30-lbs. per-acre. Apply dust so plants are thoroughly covered, getting the underside of the leaves as well. Applications are best in calm weather and in early morning with dew on plants. Apply at 10 day intervals. For use on all garden and row crop .

### CAUTION

Residues of this dust should be removed by washing thoroughly from edible parts of food crops, before processing.

**Keep out of reach of children!**

**Do not apply within one day of harvest.**
