ACCEPTED

JAN 19 1967

UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC POISON REGISTERED UNDER NO. 55212. SUBJECT TO ATTACHED COMMENTS.

Ready to use livestock spray with ten percent active ingredient concentration. Contains VAPONA Insecticide, Technical Piperonyl Butoxide and Pyrethrins (commercial grade). Designed for use as a direct application on animals and as a space spray for enclosures. For dairy cattle, beef cattle, horses, sheep, goats, hogs, protect them against the attacks of flies, mosquitoes, ticks, and gnats. Effective against flies and gnats, and ticks on the body of animals. Effective in the barn and in the pasture.

DIRECTIONS

USE AS AN ANIMAL SPRAY: To protect animals against the attacks of biting flies, mosquitoes, and gnats, apply just enough spray to wet the ends of the hair but not enough to soak the skin. One to two third ounces is enough to treat an adult cow or horse. One third ounce per animal for adult hogs, sheep, and goats. For young animals apply at one half the rate. Spray on sides, back, withers, flanks, belly, down the legs, and around the neck. Do not spray udders of milking cows. Apply once daily, preferably in the morning. Repeat at daily intervals or as necessary to give continued protection.

USE AS A SPACE SPRAY: To clear enclosed areas of flies, mosquitoes and gnats, spray toward the ceiling and corners and distribute the finely atomized mist throughout the area. Apply at rate of 2 fluid ounces per 1000 cubic feet. For best results close all windows and doors during spraying and keep closed for 10 to 15 minutes after spraying, then ventilate the area. Do not use as a space spray in areas where animals may be exposed to a direct application of the spray with shears and trimmers, etc. in the area. Protect milk and milking equipment from spray.

CAUTION: Handle with care. Avoid contact with skin. Avoid prolonged contact with eyes. Wash thoroughly after handling. Do not use in or near animal quarters. Do not spray in feed, foodstuffs, or drinking water. Protect milk and milking equipment from spray. Keep out of reach of children.

Due to conditions beyond control of the Manufacturer and Seller no warranty is made, express or implied, concerning the use of this product. User assumes all risks of use or handling whether in accordance with directions or not.
