

[852-2]

Pow-r-kill Concentrate is a semi-concentrated insecticide, for application in specialized equipment, such as the Tira Fog Micro-Challenger, Generators, BVI Insect Fogger, Tornado Bes-Kill, Aerosol Generator, electric and compressed air applicators, and similar equipment.

CAUTION: This insecticide is an oil base material and should not be sprayed, stored or otherwise exposed to open flame. Not more than one gallon should be sprayed on 40,000 cubic feet of enclosed space in order to avoid any explosion hazard. Use this product as a spacespray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment, all food processing surfaces should be covered or thoroughly cleaned before using.

*Equivalent to 1.2% of (butyl-carbity) (6-propyl)-piperonyl ether, and to .3% of related compounds.	

CAUTION

HARMFUL IF SWALLOWED. KEEP OUT OF REACH OF CHILDREN. See left panel for additional cautions.

USDA Reg. No. 852-2

In proper, specialized application Pow-r-kill Concentrate kills the accessible, exposed stages of flies, mosquitoes, flying moths, gnats, wasps, hornets, clover mites, cheesemite, cheese skipper, and most common stored grain pests, including grainery weevil, rice weevil, grain beetle, spider beetles, angoumois grain moth, Mediterranean flour moth and grain mites. By directing spray or mist directly into cracks and crevices accessible exposed stages of silverfish, crickets, roaches, spiders, scorpions, can be controlled. Used in accordance with manufacturer's directions for the individual type of applicator selected. In the Tifa machine, a No. 4 dial setting is recommended, with a dosage of 2 to 4 ounces per 1,000 cubic feet of space. Repeat treatments at intervals as needed.
