CHEMICALS MANUFACTURING DIVISION

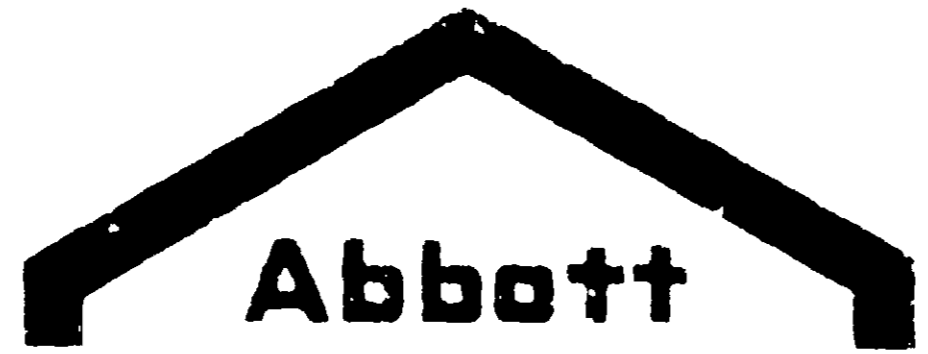

PROFESSIONAL GRADE

MALA-KOTE

MALA-KOTE is a professional grade
 solvent for use in the laboratory
 and industrial applications. It is
 a mixture of methyl acetate and
 ethyl acetate. It is a colorless,
 odorless liquid with a boiling
 point of 40°C. It is miscible
 with water and most organic
 solvents. It is used for the
 extraction of oils, fats, and
 other organic materials. It is
 also used as a solvent for
 many synthetic polymers and
 dyes.
