

**CAUTION  
COMBUSTIBLE MIXTURE**

N. Y. C. FIRE DEPT. PERMIT No. X 168663  
DO NOT USE, POUR, SPILL OR STORE NEAR  
HEAT OR OPEN FLAME.

**KEEP OUT OF REACH OF CHILDREN**

**HARMFUL IF SWALLOWED.** Remove or cover exposed food before spraying, remove pets, birds, and cover fish aquariums before spraying. Avoid inhalation and skin contact. Wash thoroughly after using. Wash empty container thoroughly with water and discard. Caution should be taken not to contaminate water when disposing of rinse water and container.

Do not allow children in treated areas until surfaces are dry.

This product is toxic to fish, birds and other wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

**DIRECTIONS**

**DIRECTIONS FOR USE IN OTHER THAN FOOD PROCESSING ESTABLISHMENTS:**

**GENERAL:** Apply with a low-pressure sprayer equipped with a coarse spray nozzle. Spray surfaces only until wet. Avoid excessive runoff. Apply to all insect breeding sites and harborage around buildings. Also treat adjacent exposed surfaces where insects may crawl when they come out of hiding. Repeat treatment as necessary.

**ROACHES, ANTS, WATERBUGS, SILVERFISH, SPIDERS, CRICKETS:** Spray heavily in all cracks, around baseboards and under places where these insects hide. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, in the control of ants use spray so as to wet as many insects as possible, thoroughly treat nests, runways, around door frames, around window frames, and other places of entry. Use on other localized areas infested with any of the above mentioned pests. Repeat treatment as required.

**CARPET BEETLES:** To aid in the control of and kill the exposed stages of these pests make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks of closets and infested areas of shelvings. Repeat as necessary.

**BROWN DOG TICKS:** Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as reinfestations occur. Fresh bedding should be placed in animal quarters following treatment. **DO NOT** treat animal with this insecticide.

**FLIES, MOSQUITOES, WASPS AND FLYING MOTHS OUTDOORS:** For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, around window frames, or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

**DIRECTIONS FOR USE WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:**

**FOOD HANDLING ESTABLISHMENTS:**

Places other than private residences in which food is held, processed, prepared or served.

**FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY.**

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation also would be considered a food area).

Prior to application de-energize electrical equipment. After application, allow time for oil to evaporate before starting motors or placing switches in the ON position.

Apply a small amount of this residual insecticide, with equipment that can deliver a pin-thin stream of this material, directly into cracks and crevices, expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housings, junction boxes or switch boxes, conduits, or hollow equipment legs where roaches, ants, silverfish, spiders and crickets hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

**APPLICATIONS OF THIS INSECTICIDE IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.**

**NON-FOOD AREAS** - Includes garbage rooms, lavatories, floor drains (to sewers entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.
