**DISINFECTS AND DEODORIZES AS IT
 CLEANS, SIMULTANEOUSLY REMOVING
 RUST AND ENCRUSTATIONS**

KEEP AWAY FROM HEAT • STORE IN A COOL PLACE

DIRECTIONS

TO CLEAN, DISINFECT AND DEODORIZE TOILET BOWLS: — Pour one to one and one half ounces of CLEANER into toilet bowl. Swab entire bowl with solution. Rinse and flush toilet well.

TO CLEAN AND DEODORIZE TOILET BOWLS: — Hold mop over bowl and pour onto mop one ounce of CLEANER, measuring with scale on bottle. Swab the inside area of bowl thoroughly, particularly under rim and at water outlets, as well as drain at the bottom. Flush toilet and rinse out mop.

FOR REMOVING ENCRUSTATIONS BY DIRECT CONTACT: — Remove water from bowl by forcing water over trap with mop or remove water from bowl with mop. Squeeze water out of mop. Place mop in bowl and pour one to two ounces of CLEANER on mop. Swab throughout entire inside area of bowl, especially under rim of water outlets. Flush and rinse toilet and mop.

TO CLEAN, DISINFECT AND DEODORIZE URINALS: — Place clean mop over trap in urinal and saturate with one ounce of CLEANER. Clean urinal thoroughly, wetting entire surface. Work cleaner into grooves along side and at top of urinal and at water outlet. Remove screen at urinal trap, after surface is clean, and pour one to two ounces of CLEANER around drain opening and into drain outlet. Wait two or three minutes to allow CLEANER to work, then swab inside of pipe thoroughly. Replace screen and flush well. This CLEANER is formulated with an inhibitor and wetting agent; it penetrates and attacks encrustations, rust and scum quickly, but it does not harm pipes or fixtures. May also be used in septic tank systems.

POISON

CONTAINS HYDROCHLORIC ACID

DANGER: CORROSIVE. KEEP OUT OF REACH OF CHILDREN.

May be fatal if swallowed. Do not breathe vapor or fumes. May produce chemical burns. Do not get in eyes, or skin, or on clothing.

ANTIDOTE: INTERNAL — Drink a teaspoonful or more of magnesia, chalk, or small pieces of soap, softened with water in milk or raw egg white. In case of ingestion or injury, call physician immediately.

EXTERNAL: Wipe off the acid gently, immediately flood the surface with water, using soap freely then cover with moist magnesia or baking soda.

EYES — Wash with water for 15 minutes. Get prompt medical attention.

CAUTION: Do not use on enamel or porcelain coated surfaces. The use of this cleaner on other than vitreous ware is done at user's own risk.

Do not place container on or near radiator or other warm objects.

Do not mix with any other compound. Avoid splashing on nylon.

Rinse empty container thoroughly with water and discard washings into toilet. Discard rinsed container.
