DO NOT USE POUR SPILL OR STORE NEAR HEAT OR OPEN FLAME

This is an especially designed residual insecticide for industrial and institutional use only. When used in accordance with the following directions outstanding results are achieved in controlling the named insects in food processing plants, meat processing plants and in research facilities.

DIRECTIONS FOR USE IN OTHER THAN FOOD PROCESSING ESTABLISHMENTS: GENERAL: Apply with a low-pressure sprayer equipped with a coarse spray nozzle. Spray surfaces only until wet. Avoid excessive run-off. Apply to all insect breeding sites and harborages. Also treat adjacent exposed surfaces where insects may crawl when they come

out of hiding. Repeat treatment as necessary.

COCKROACHES: Thoroughly treat the infested area. Sproy baseboards, cracks and crevices; around window and door frames; the under surfaces of shelves, drawers and work tables, behind and beneath cabinets, refrigerators, sinks and stoves; in and around waste containers, switch panels, junction boxes, floor drains and other places where cockroaches hide

ANTS: Apply to trails and places where ants enter premises such as window and door

CADELLES, CIGARETTE BEETLES, DRUGSTORE BEETLES, INDIAN MEAL MOTHS, MEDITERRANEAN FLOUR MOTHS, RED FLOUR BEETLES, SAW-TOOTHED GRAIN BEETLES, GRANARY WEEVILS and RICE WEEVILS: To aid in the control of and kill the exposed stages of these insects thoroughly treat floors and the walls of the infested area with attention to cracks, crevices, corners and perimeters. Sanitation and dust control are of primary importance. Fumigate or destroy infested products.

SILVERFISH, FIREBRATS and PAPER LICE: Apply to localized areas infested by these

BROWN DOG TICKS: Spray sleeping quarters of pets, around baseboords, window and door frames, wall cracks and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

placed in animal quarters after spraying. Do not spray animals.

CLOVER MITES, CRICKETS, EARWIGS, MILLIPEDES, CENTIPEDES, SOWBUGS, SCORPIONS and SPIDERS: Thoroughly spray the interior and exterior perimeter of the infested
premises. For Clover Mites give special attention to window sills.

FOR OUTDOOR USE:

FLEAS, FLIES, GNATS, MOSQUITOES, PUNKIES and SANDFLIES: Spray infested areas
thoroughly including outside surfaces of screens, doors, window frames, foundations, patios and other areas where insects may enter.

ANTS, CLOVER MITES, CRICKETS, EARWIGS, HORNETS, MILLIPEDES, SOWBUGS,
WASPS and BROWN DOG TICKS: Spray infested areas thoroughly including outside surfaces O
of screens, doors, window frames, foundations, patios or other places where insects may
enter. For Ants, spray hills and runways. For control of Wasps and Hornets spray after dark
when all of the insects have returned to their nest. Repeat as necessary. Do not spray of when all of the insects have returned to their nest. Repeat as necessary. Do not spray vegetation

INSECT CONTROL IN RESEARCH FACILITIES: The use of this Residual Insect Spray in and around research animal quarters for insect control will not induce changes in liver microsomal enzyme activity in these animals.

DIRECTIONS FOR USE WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS: FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible ails, syrups). Serving areas (when food is exposed and facility is in operation would also be considered a food area).

Prior to application de-energize electrical equipment. After application, allow time for oil to evaporate before starting motors or placing switches in the ON position.

Apply a small amount of this residual insecticide, with equipment capable of delivering a pin

thin stream of this material, directly into cracks and crevices, expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housings, junction boxes or switch boxes, conduits or hollow equipment legs where Ants, Centipedes, Cockroaches, Clover Mites, Firebrots, Millipedes, Silverfish, Sowbugs and Spiders hide. Care should be taken to avoid depositing the product on to exposed surfaces or introduction the material late the material la faces or introducing the material into the air. Avoid contamination of food or food process-

APPLICATIONS OF THIS INSECTICIDE IN THE FOOD AREAS OF FOOD HANDLING EST-

ABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.

NON-FOOD AREAS - Includes garbage rooms, lavatories, floor drains (to sewers entries and vestibules, offices, locker rooms, machine rooms, bailer rooms, garages, map closets and storage (after canning or bottling).

Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

DO NOT REUSE CONTAINER, DESTROY WHEN EMPTY.

CAUTION

May be harmful if swallowed, inhaled or absorbed through the skin. Do not get in eyes, on skin, or on-clothing. In case of contact, wash immediately with soap and warm water. Wash hands, arms and face, thoroughly with soap and water before eating or smaking. Wash all contaminated clothing with soap and hot water before re-use. Avoid breathing spray mist.

Should illness occur, get prompt medical attention. To physicion - Atropine sulfate is antidotal.
