

DIRECTIONS

GENERAL CLASSIFICATION

It is a violation of Federal Law to sell this product in a container not consistent with its label.

This DISINFECTANT SANITIZER DETERGENT is designed specifically for hospitals, nursing homes, schools, food processing plants, food service establishments, and other institutions where housekeeping is of prime importance. To disinfect hard non-porous surfaces, such as walls, floors, table tops, add 2 ounces DISINFECTANT SANITIZER DETERGENT per gallon of water. Apply solution with mop, cloth, sponge, or hand sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

To disinfect toilet bowls, flush toilet, add 2 ounces DISINFECTANT SANITIZER DETERGENT directly to the bowl water. Wipe the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

MILDEWSTAT. To control mold and mildew on pre-cleaned hard non-porous surfaces such as floors, walls, table tops, add 2 ounces of DISINFECTANT SANITIZER DETERGENT per gallon of water. Apply solution with mop, cloth, sponge making sure to wet all surfaces thoroughly. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

SANITIZATION. To sanitize pre-cleaned hard non-porous food contact surfaces, prepare solution by adding 2 ounces DISINFECTANT SANITIZER DETERGENT to 3 1/2 gallons of water.
