

This DISINFECTANT is effective against a wide variety of positive and gram-negative bacteria. It is also an excellent deodorant and is especially effective in controlling odors that are bacterial in origin.

This DISINFECTANT mixes with water to form clear, stable use solutions. Use solutions are non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals. Has a pleasant pine odor.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER**

Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food. Wear goggles or face mask and rubber gloves when handling.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds or public water unless in accordance with NPDES Permit.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

USE DIRECTIONS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION INFORMATION

Select the proper dilution of this DISINFECTANT for use from the directions below. Apply the use solution with a brush, sponge, cloth, squeegee, or mechanical scrubber.

Prepare fresh use solutions daily. Do not reuse solutions. Discard solutions when they become visibly soiled. For disinfection, thoroughly wet the surfaces to be treated. Surfaces must remain moist for at least 10 minutes to assure proper germicidal action.

This product may be used for cleaning and disinfecting non-porous, inanimate environmental surfaces, such as plastic, metal, enamel, linoleum, leather, vinyl, and painted surfaces. It is also effective on walls, floors, appliances and furnishings.

CLEANING

To Clean and Deodorize or to Preclean Prior to Disinfection, Depending on the soil level of the area to be cleaned, use 3 to 12 ounces of this DISINFECTANT per gallon of water.

DISINFECTING

Hospitals, Veterinary Clinics, Nursing Homes, and Other Medically Related Uses. Use 7 1/2 ounces of this DISINFECTANT per gallon of water (1 part to 16 parts water) for one-step cleaning and disinfection of areas with light to medium soil loads. For heavily soiled areas, pre-clean as described above and then disinfect with this DISINFECTANT at 9 ounces per gallon (1 part to 20 parts water).

Schools, Industrial Areas, Homes, Barber Shops, Restrooms, Restaurants, Food and Meat Processing Plants (non-food processing areas), Public Rooms, Other Non-Medical Uses. Preclean surfaces. Then, disinfect with a solution of 4 ounces of this DISINFECTANT in a gallon of water (1 part to 31 parts water). Alternatively, clean and disinfect in one operation using 7 1/2 ounces of this DISINFECTANT per gallon of water.

For Deodorizing Garbage Cans, Garbage Trucks, Industrial Waste Receptacles, and Garbage Handling Equipment. It is especially important to pre-clean for the product to perform properly. Then, apply a wetting concentration of 16 ounces of this DISINFECTANT per gallon of water.

For Mildew Control. Follow directions for hospital disinfection. Repeat treatment every seven days, or when new growth appears.

This DISINFECTANT may be used through automatic floor scrubbing equipment.

This DISINFECTANT has not been tested for effectiveness against *Mycobacterium tuberculosis* and must not be relied upon where tuberculocidal activity is intended.

This DISINFECTANT should not be used on food contact surfaces.

CONTAINER DISPOSAL

- a) Do not reuse empty containers. Wrap container and put in trash collection.
- b) Containers of 30 gallons or more - reseal container and offer for reconditioning, or:
- c) All containers - triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill, or bury in a safe place.

GENERAL: Consult Federal, State or Local authorities for approved alternative procedures.
