WILLIAMS

Pine Oil Disinfectant is made with 80% pure distilled pine oil, 10% soap, and 10% water. This golden, sparkling disinfectant blooms to a snow-white emulsion when poured into water, and remains stable for at least 24 hours in soft or moderately hard water.

Pine Oil Disinfectant is very effective in killing the typhoid germ, Salmonella typhosa, and it is a superb solvent for many soils. Added to a floor cleaner, it helps clean, deodorize, and sanitize.

CAUTION: Harmful if swallowed. For external use only. Avoid contamination of feed and foodstuff.

USDA Reg. No. 864-1

PINE OIL DISINFECTANT

Phenol Coef. 5

Using A.O.A.C. method
vs. Salmonella typhosa

Active ingredients: Pure pine oil, soap 90%
