

ACTIVE INGREDIENTS	
Allyl Isothiocyanate	0.25%
Lemongrass Oil	7.00%
INERT INGREDIENTS 92.75%	
Total 100.00%	

Shake well before using.

Spray a fine mist of Green Light Dog & Cat Repellent on the plants from the ground line up to a height of 12 to 18 inches on larger shrubs, flowers, and ornamental trees. For small flowers and grass, spray entire plant with a fine mist. Make a quick pass with the spray over the plant to prevent overspraying. Hold aerosol can at least 15 to 18 inches from the plant when spraying. Do not wet plant with spray. Repeat when necessary which will be determined largely by weather conditions.

The most effective control for a pet is the sharply spoken word backed up with disciplinary action. This product should be used in conjunction with disciplinary training.
