

INSTRUCTIONS FOR USE

For Chinch bugs on Lawns and Turf: Wet ground with water before spraying. When using a pump sprayer dilute one part of concentrate in 25 gallons of water and spray to 1,000 sq. ft. When using a low pressure sprayer fill quart bottle of sprayer 2/3 full (22 ounces) with concentrate and fill filling bottle to top with water. Apply this mixture over 1,000 sq. ft. of lawn area. For other sprayers use 3 tablespoonsful of concentrate per gallon of water and use at least 15 gallons of spray per 1,000 sq. ft. of lawn area. After spraying, water the lawn lightly to get the spray down to the ground line of the grass. Repeat application if chinch bug damage re-occurs. Note: Ten steps in one direction and eleven in another direction is approximately 1,000 sq. ft.

May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. In case of contact, immediately remove contaminated clothing and wash skin thoroughly with soap and water. For eyes, flush with water for 15 minutes. Wash hands, arms, and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse.

Do not contaminate feed and foodstuffs. Destroy empty container. Do not allow children or pets to treat lawn until material is washed into the soil and grass is completely dry.

This product is toxic to shrimp and crabs. Do not apply where rain is likely to occur.

Apply product to lawn. Keep applicator at least 1000 ft. from water.
