Mr. Jeff Luedke  
Green Light Company  
P.O. Box 17985  
San Antonio, TX 78217

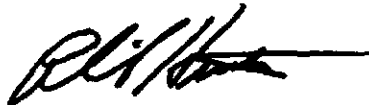

Dear Mr. Luedke:

Subject: Green Light Tomato and Vegetable Dust  
EPA Registration No. 869-137  
Your Submission of a Draft Label With a Cover Letter Dated  
September 8, 1989 Responding to the Registration Standard  
for Rotenone

Enclosed is a stamped copy of the draft label you submitted. It will be acceptable with the following change. Revise the "Pesticide Disposal" statement to read "Leave unused pesticide in the original container. Securely wrap the original container in several layers of newspaper and discard in trash."

The Confidential Statement of Formula (CSF) dated September 17, 1986 will be kept in the file for this product. A revised CSF may be required if changes are made in labels for manufacturing-use products supplying the active ingredients for this product.

Sincerely yours,

Phil Rutton  
Product Manager (18)  
Insecticide-Rodenticide Branch  
Registration Division (H7505C)

869-137

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** May be harmful if swallowed. Avoid breathing dust. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT:** IF SWALLOWED, call a physician immediately. IF INHALED, remove victim to fresh air. IF ON SKIN, wash with soap and water. IF IN EYES, rinse with plenty of water. Call a physician.

**NOTE TO PHYSICIAN:** Carbaryl is a moderate reversible cholinesterase inhibitor. Atropine is antidotal.

**ENVIRONMENTAL HAZARDS:** This pesticide is extremely toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, potholes). Runoff and drift from treated areas may be hazardous to aquatic organisms in adjacent sites. Do not contaminate water when disposing of equipment washwaters.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**STORAGE AND DISPOSAL**

**STORAGE:** Store in a locked storage area out of reach of children and domestic animals. Store in original container. **PESTICIDE DISPOSAL:** Unwanted pesticide material leave in original container. Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse container. Discard in trash.

Dust vegetables thoroughly, making sure top and underside of foliage is treated with dust. Start at the first sign of insects or disease and repeat at 5 to 7 day intervals until control is obtained. This dust may be used on vegetables listed up to day of harvest.

VEGETABLE	INSECT	DISEASE
Tomatoes	Aphids, Leafhoppers, Tomato Hornworm, Flea Beetles	Early and Late Blight Anthracnose
