DIAZINON[®] 5 GRANULES

FOR CERTAIN LAWN INSECTS:

CHINCH BUGS, BILLBUGS, WHITE GRUBS such as JAPANESE BEETLE,
 EUROPEAN CHAFER, SOUTHERN CHAFER, as well as BROWN
 DOG TICKS, LAWN MOTH (SOD WEBWORM), ARMYWORMS, CHIGGERS,
 LEAFHOPPERS, SOWBUGS, MILLIPEDES, EARWIGS, ANTS,
 BERMUDA MITES.

TREATS UP TO 6,000 SQ. FT.

Read entire label before using this product.

DIRECTIONS FOR USE

For Control of Chinch Bugs, Lawn Moth (sod webworms), Bermuda Mites, Ants, Earwigs, Armyworms, Leafhoppers, Chiggers: On Bermuda, Zoysia, and Bentgrass lawns apply 2 to 3 lbs. Granules per 1,000 sq. ft. On St. Augustine grass lawns apply 3 to 3 1/2 lbs. per 1,000 sq. ft. Water lawn thoroughly before applying Granules. Then water after treatment just enough to get Granules off grass and down to the soil. Do not water lawn for 2 to 3 days after treatment. Repeat application in 7 to 10 days if necessary.

For white grubs such as Japanese beetle, European chafer, Southern chafer, and billbugs, apply 2.5 lbs. Granules per 1,000 sq. ft. or 12 lbs. per 4,800 sq. ft. of lawn. Water grass thoroughly after application. For grub control make application any time between late July and early October. For billbug control apply when activity is first observed or when chewed or brown grass indicates damage from these insects. Repeat as necessary.

Band Treatment Around Foundation: Brown Dog Ticks, Crickets, Earwigs, Fleas, Millipedes, and Sowbugs are commonly found around or near foundation of houses as well as in the lawn. Certain of these insects may even enter the house. For control of these insects, apply a five-foot band of Granules next to the foundation of the house. Distribute the Granules uniformly using a rate of 5 oz. for each 5-ft. by 20-ft. area to be treated.

SPREADER SETTING NUMBER PER 1,000 Sq. ft.

Spreader Make & Model	Regular or Dichondra Lawn	St. Augustine Lawn	White Grubs, Billbugs
	2 lbs.	3 lbs.	2-1/2 lbs.
Scott	6-1/8	6-1/8	5-5/8
