

DIRECTIONS FOR USE

**INDOORS:** To break your pet of undesirable habits, (such as sleeping on furniture, rugs, and other forbidden areas in your home), spray the article of furniture, rug, etc., lightly with this product so that the area or object is slightly moistened. Before spraying extensive areas of rugs, fabrics, or plastics, test the effect of this product by first treating a small inconspicuous area. This product may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected. Repeat daily, or as necessary, until undesirable habit is broken.

**OUTDOORS:** To prevent your pet, or stray animals, from soiling flower beds, areas of lawn, trees, shrubbery, or evergreens, spray the edges of flower beds, trunks of trees, the bases of shrubbery and evergreens, patches of lawn, etc., lightly every day, or every other day with this product. Stray animals are frequently attracted to areas where urine or feces has been deposited. First, remove any droppings, then spray the spot with this masking odor. Re-apply as often as necessary until undesirable habits of your pet or stray animals are changed.

DO NOT APPLY DIRECTLY TO FOLIAGE OF SHRUBS OR TO ORNAMENTAL, SOFT BODIED PLANTS

**GENERAL:** For both indoor and outdoor situations, the most effective control for a pet is the sharply spoken word backed up with disciplinary action. The repellent product should be used in conjunction with training.

**CAUTION:** Keep out of children's reach. Avoid contact with hands. Wash hands with soap and water after spraying. Do not spray on food. Avoid contact with pet food and feedstuffs.

**WARNING:** Keep out of children's reach. Do not spray on clothing or on fur. Do not use on humans. Do not use on children. Do not use on animals exposed to sun. Do not use on animals with open wounds. Do not use on animals.
