**PRECAUTIONARY STATEMENTS.**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**  
**CAUTION: KEEP OUT OF REACH OF CHILDREN.** Harmful if swallowed. May be absorbed through the skin. May be injurious to eyes and skin. Combustible. Keep children and pets off treated areas until spray has dried. Avoid skin and eye contact. Do not smoke while using. Wash thoroughly after handling. Flush contaminated eyes with plenty of water and get medical attention. Avoid breathing mist of vapor. Wash contaminated clothing before re-use. **NOTE TO PHYSICIANS:** Chlorpyrifos is a cholinesterase inhibitor. Treat Symptomatically. Atropine, only by injection, is an antidote.

**ENVIRONMENTAL CAUTIONS:** This product is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated.

This product is highly toxic to bees exposed to direct treatment or residues on plants. Protective information may be obtained from your Agricultural Extension Service. Apply this product only as specified on this label. Keep this product in original container.

Do not contaminate water by cleaning of equipment or disposal of wastes. Do not spray vegetable gardens or other plants used for food purposes. Keep away from food, feed stuffs, and domestic water supplies. Keep container closed.

**DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.** Handle concentrate in a ventilated area.

**STORAGE AND DISPOSAL.**

**STORAGE:** Store in a locked storage area out of reach of children and domestic animals. Store in original container. **PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse container. Rinse thoroughly before discarding in trash.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ ENTIRE LABEL BEFORE USING.**

For control of chinchbugs, sod webworms (larva moths), ants, fleas, brown dog ticks, crickets, cutworms, earwigs, grasshoppers, chiggers and sowbugs (pillbugs) infesting lawns and turfs. Wet grass down thoroughly before spraying with this emulsifiable concentrate. Dilute spray at the rate of 1 tablespoonful per gallon of water to treat 100 square feet or 3 ounces (10 tablespoons) per 10 gallons of water and apply over 1,000 square foot area. When using a lawn hose-on-sprayer (1 1/2-gallon to 20-gallon sprayer) fill quart jar to 10-ounce mark with spray and finish filling jar to top with water. Then apply this mixture over 2,000 square feet of lawn grass. Ten steps in one direction and eleven in another direction is approximately 1,000 square feet. Repeat application if chinch bug damage recurs or when pests reappear.

**NOTE:** To help prevent infestation of buildings by ants, cockroaches, crickets, fleas, ticks, earwigs, and sowbugs (pillbugs) treat a band of soil 6 to 12 feet wide around and adjacent to the building and also the building foundation to a height of 2 to 3 feet where pests are active and may find entrance. Dilute spray at the same rate as above. Apply as a coarse spray to thoroughly and uniformly wet the band area.

**ORNAMENTALS:** To control aphids, bagworms, eastern tent caterpillar, fall webworm, grasshoppers, mites, spittlebugs, whiteflies. Dilute 1 tablespoon in 1 gallon of water. To control cutworms, leathoppers, mealybugs, mimosa webworm, redhumped caterpillar, and thrips (exposed). Dilute 1 ounce (2 tablespoons) in 1 gallon of water. Avoid over-spraying to the point of excessive runoff.

Treat when pests appear and repeat at 7 to 10-day intervals if needed.

**NOTE: DO NOT USE ON AZALEAS, CAMELLIAS, PANSIES, ROSES, OR VARIEGATED IVY BECAUSE OF POSSIBLE INJURY TO THESE PLANTS.**
