PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through the skin. Will cause skin irritation. Do not breath vapor or spray mist. Do not get in eyes, on skin or clothing. Wash thoroughly after handling or spilling on skin. Keep children and pets away from treated areas until thoroughly dry.

STATEMENT OF PRACTICAL TREATMENT: IF SWALLOWED, drink promptly a large quantity of milk, egg whites, or gelatin solution; or if these are not available drink large quantities of water. Avoid alcohol. Do not induce vomiting because of aspiration hazard. Call a physician immediately. IF INHALED, remove victim to fresh air and apply artifical respiration if indicated. IF ON SKIN, wash promptly with soap and water. Rinse thoroughly. IF IN EYES, rinse eyes for at least 15 minutes with water and call a physician immediately.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Birds and other wild-life in treated areas may be killed. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS: Do not use, pour, spill, or store near heat or open flame.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

STORAGE: Store in a locked storage area out of reach of children and domestic animals. Leave in original container until used. Store at temperatures above 32F. PESTICIDE

DISPOSAL: Unwanted pesticide material leave in original container. Securely wrap original container in several layers of newspaper and discard in trash. CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly before discarding in trash.

DO NOT USE ON ANY CULTIVATED AREA OR AREAS THAT MAY BE USED LATER FOR CULTIVATION. DO NOT USE UNDER TREES OR SHRUBS. STAY OUTSIDE OF THE DRIP LINE TO PREVENT DAMAGE TO DESIRABLE TREES. DO NOT USE WHERE LEACHING OR RUN-OFF MAY DAMAGE SHRUBS OR TREES.

Uniformly spray 1 quart Green Light Com-Pleet mixed in 2½ gals. water over 250 sq.ft. or 1 gal. in 10 gals. water over 1,000 sq.ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or soon after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1 gal. of Green Light Com-Pleet in 10 gallons of water per 666 sq.ft. For control of hard-to-kill perennial weeds and grasses such as johnsongrass, bindweed, and wild carrot, use 1 gal. per 333 to 222 sq.ft. Although Green Light Com-Pleet has considerable activity through foliar contact, much of its activity is through the roots; therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface. Care must be taken to keep the herbicide away from desirable flower beds, lawns, and shrubs. Do not apply over roots of valuable trees, or woody ornamental plants. Only apply herbicide outside of the drip line of trees. Avoid drift to desirable plants.

IMPORTANT: Read the Directions For Use and the Conditions of Sale and Warranty before using this product. Since weather and other conditions under which this product may be used will vary, the Seller makes no warranty of any kind, express or implied, concerning the use of this product. The user assumes all risks of use or handling not in accordance with directions or suggestions.
