PESTS INDOORS

GENERAL INFORMATION: Use Green Light Indoor Outdoor Bug Killer insecticide to control the pests mentioned in the areas listed below by application of the product as an undiluted spray (0.5% chlorpyrifos). Repeat the treatment as needed.

Do not apply sprays of this product in conduits, motor housing, junction and switch boxes or other electrical equipment because of possible shock hazard. Do not use in poultry houses or other animal buildings. Do not allow spray to contact food, feedstuffs and water supplies. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying.

APPLICATION WITHIN RESIDENTIAL BUILDING INCLUDING HOMES AND APARTMENT BUILDINGS AND WITHIN NONFOOD AREAS OF INDUSTRIAL, INSTITUTIONAL, AND COMMERCIAL BUILDING INCLUDING HOSPITALS, STORES, MANUFACTURING PLANTS AND WAREHOUSES FOR SPOT TREATMENT ONLY. Apply as a coarse spray or with a paint brush to localized areas where **COCKROACHES**, including strains resistant to certain other insecticides, **ANTS**, **CLOVER MITES**, **CRICKETS**, **FIREBRATS**, **SILVERFISH**, and **SPIDERS** are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerator and cabinets, around plumbing and other utility installations. For ants apply to ant trails, also around doors and windows and wherever else these pests may find entrance. **NOTE:** A period of 4 to 7 days is normally required for maximum effect on cockroaches.

FOR CONTROL OF CARPET BEETLES, thoroughly apply as a spray for spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture in closets and on shelving and wherever else these insects are seen or suspected.

FOR CONTROL OF FLEAS AND BROWN DOG TICKS, thoroughly apply as a spray for spot treatment to infested areas such as pet beds and resting quarters near by cracks and crevices along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. **DO NOT TREAT PETS WITH THIS PRODUCT.** To control the source of flea infestation pets inhabiting the treated premises should be treated with a product registered for application to animals.

PESTS OUT OF DOORS

FLIES MOSQUITOES For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects might congregate. Repeat as necessary.

ANTS BROWN DOG TICKS CRICKETS, FLEAS AND EARWIGS For treatment of localized infestations of these insects, in outdoor areas where there are weeds or brushy non crop areas, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant or as reinfestations occur.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of the product contrary to label instructions, or under abnormal conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
