

DISPOSAL: Do not reuse empty container for any purpose other than to refill with Fire Ant Mound Drench. When no longer needed, rinse thoroughly before discarding in trash.

APPLICATION: Remove cap leaving white applicator top on. Sprinkle the contents of this container (1 gallon) over the ant mound. Thoroughly wet mound and surrounding area to 4 ft. diameter (12 sq. ft.). For best results apply in cool weather, 65-80 Degrees F, or in early morning or late evening hours. Treat new mounds as they appear.

REFILL APPLICATOR: Remove applicator cap. Partially fill this Fire Ant Killer applicator 1/4 to 1/2 full with water. Mix 2 fluid ounces (4 tablespoons) of Green Light Fire Ant Killer (EPA Reg. No. 869-184) in applicator and finish filling container with water. Place closure cap on applicator and shake well. Remove cap and place applicator top with breather tube securely on container and drench fire ant mound. Use entire gallon of solution, thoroughly wetting mound and surrounding area to a 4 foot diameter. Do not store solution after mixing.
