Green Light Boric Acid Powder is a long-lasting, odorless powder effective in killing roaches. The powder provides long lasting protection from further infestations as long as it stays dry. Green Light Boric Acid Powder sticks to the roaches it comes in contact with. These roaches then spread the powder to other areas where roaches multiply and hide. The end result is all roaches (seen and unseen) are killed. Allow 14 days for the elimination of roaches.
