Green Light Company  
 P.O. Box 17985  
 San Antonio, TX 78217

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 869-204" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

GREEN LIGHT  
TERMITE KILLER  
WITH DURSBAN\* INSECTICIDE  
TREATS 60 LINEAR FEET

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.  
869-204-97

|  |         |
|--|---------|
| ACTIVE INGREDIENTS:  |         |
| Chlorpyrifos [O,O-diethyl O-(3,5,6-trichloro-2-pyridyl phosphorothioate)]..... | 74.88%  |
| Xylene.....  | 7.30%   |
| Xylene range aromatic solvent.....   | 4.92%   |
| INERT INGREDIENTS.....   |         |
| TOTAL  | 100.00% |

Contains 1 pound of chlorpyrifos per gallon.

KEEP OUT OF REACH OF CHILDREN  
WARNING

1 GALLON

EPA Registration No. 869-

EPA Est. 869-TX-1

SHAKE WELL BEFORE USING  
STORE ABOVE 55F

NOTE: Crystals may form in this product if stored below 55F. If crystals are present, warm to 70F and shake occasionally until crystals disappear.

PRECAUTIONARY STATEMENTS  
Hazards to Humans  
MAY BE FATAL IF SWALLOWED  
MAY BE INJURIOUS TO EYES AND SKIN

Do Not Take Internally - Do Not Get in Eyes, on Skin or on Clothing - Avoid Breathing Vapors or Spray Mist - Wash Thoroughly After Handling and Before Eating or Smoking - Do Not Wear Contaminated Clothing or Shoes.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Do not induce vomiting. Contains aromatic petroleum solvent. Call a physician immediately. If On Skin: In case of contact, remove contaminated clothing and immediately wash skin with soap and water. If irritation persists get medical attention. If In Eyes: Flush eyes with plenty of water for 15 minutes. Call a physician. If Inhaled: Remove to fresh air. Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

Physical and Chemical Hazards  
COMBUSTIBLE  
Do not Use or Store Near Heat or Open Flame

BEFORE USING, READ AND FOLLOW COMPLETE DIRECTIONS FOR USE AND OTHER IMPORTANT INFORMATION IN BOOKLET ATTACHED TO THIS CONTAINER.

## ENVIRONMENTAL HAZARDS

TERMITE KILLER is toxic to fish, birds, and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

AGRICULTURAL CHEMICAL. Do Not Ship or Store with Food, Feeds, Drugs, or Clothing.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

## SUBTERRANEAN TERMITES - DIRECTIONS FOR HOMEOWNER USE

### TERMITE CONTROL IN EXISTING STRUCTURES

#### Buildings with Basements or Crawl Spaces

First remove all wood debris and wood forms. Around piers, pipes, chimney bases and along foundations of poured concrete dig a trench 6 inches wide and 4 inches deep. If footing is more than 12 inches deep, make holes with a crowbar, pipe or a rod about one foot apart that extend from the trench bottom to the top of the footing. Make holes closer in hard-packed clay soils. NEVER DIG BELOW THE TOP OF THE FOOTING. Apply the solution with a sprinkling can. Mix 5 1/3 fluid ounces per gallon of water and treat 2 1/2 linear feet of trench or foundation (one half gallon will make 12 gallons of diluted solution and treat 30 linear feet). Apply half of this to the back-fill. Likewise, treat along the inside of foundations of crawl-space buildings. Cover treated soil with a thin layer of untreated soil.

For raised porches, terraces, and entrance slabs, drill holes at one-foot intervals, 6 inches from the foundation, and pour one-half gallon of emulsion (or solution) into each hole. Refill holes. Slabs with heat ducts or radiating heat pipes should be treated by commercial pest control operator.

The object is to establish a treated soil barrier which will prevent termite entry. Other critical areas may also require treatment, particularly if there are inaccessible areas, basements or slab-type construction. It is suggested that you contact the Agricultural Cooperative Extension Service for advice or consult a Commercial Pest Control Service.

Avoid contamination of public and private water supplies by following these precautions. Do not allow a hose or any type of faucet extension to reach into the termite chemical solution while filling or mixing this material with water. Use antiback-flow or anti-siphonage equipment on all filling equipment. These devices can be purchased at hardware or plumbing supply stores. Use of antiback-flow equipment will help to ensure that the user of this toxic chemical will not contaminate domestic water supplies. Refer to federal (Federal Housing Administration), state, and local specifications for safe distances of treatment areas from wells. Soil in the vicinity of wells, cisterns, ponds should not be treated if it is water saturated, subject to excessive saturation due to an accumulation of water or if the soil to be treated around the perimeter of the structure is at a

grade lower than surrounding yard or property area. If this is the situation, treat as follows: Do Not Apply Under Pressure. Soil should be removed to an area safe from well or domestic water contamination, treated, allowed to stand undisturbed for two to four hours, then returned to the trench which has been lined with 4 mil. plastic sheeting. Be careful not to puncture the plastic sheeting when returning soil to the trench. Do not treat structures that contain cisterns or wells.

#### RETREATMENT RESTRICTIONS

1. Retreatment for subterranean termites should only be made when there is evidence of reinfestation subsequent to the initial treatment, or there has been a disruption of the chemical barrier in the soil due to construction, excavations, landscaping, etc. Reapplication should be made as a spot treatment to these areas.
2. Annual retreatment of the entire premises must be avoided.

#### STORAGE AND DISPOSAL

**STORAGE:** Store in a locked storage area out of reach of children and domestic animals. Store in original container. **PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard trash. **CONTAINER DISPOSAL:** Do not reuse container. Rinse thoroughly before discarding in trash.

**NOTICE:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of the product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
