U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
869-235

Date of Issuance:
SEP 30 1998

Term of Issuance: Conditional

NOTICE OF PESTICIDE:
 X Registration
 Reregistration

Name of Pesticide Product:
Green Light Conquest
Insecticide
Concentrate

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Green Light Company
P.O. Box 17985
San Antonio, Texas 78217-0985

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 869-235".

b. On the front panel change "Controls Insect Pests ..." to "Controls Named Insect Pests ...".

c. Replace the second sentence under Environmental Hazards with "Do not apply directly to water.". Also add the following statement "Do not contaminate ornamental fish ponds.".

Signature of Approving Official:

Date:

page 2
EPA Reg. No. 869-235

d. Add an asterisk to Fire Ants and qualify as follows:
**Aids in control".

3. Submit two (2) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Enclosure

GREEN LIGHT CONQUEST INSECTICIDE CONCENTRATE

FOR USE ON RESIDENTIAL LAWNS AND GARDENS ONLY

Fast-Acting Water-Based Long-Lasting Low Odor Non-Staining

ONE QUART COVERS OVER 5,000 SQ. FT. OF HOME LAWN AREA

Provides Up To One Month Control Of Insect Pests Outdoors

**READY-TO-SPRAY FOR CONVENIENT AND ACCURATE APPLICATION.
CONTROLS INSECT PESTS OUTSIDE AROUND HOMES, ON HOME LAWNS,
TREES, SHRUBS AND FLOWERS.**

ACTIVE INGREDIENT:

Permethrin [*-(3-Phenoxyphenyl) methyl (±) cis/trans 3-(2,2-dichloroethenyl)-2,2-dimethylcyclopropanecarboxylate]..... 2.5%

INERT INGREDIENTS..... 97.5%
TOTAL 100.0%

*cis trans isomer ratio: Min. 35% (±) cis
Max. 65% (±) trans

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See Side Panel For Additional Precautionary Statements

SEP 30 1998

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the use as
registered under EPA Reg. No.

869-235

4045

CAUTION: May be harmful if swallowed or absorbed through the skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician or Poison Control Center. **IF ON SKIN:** Wash promptly with plenty of soap and water. **IF IN EYES:** Rinse eyes for at least 15 minutes with plenty of water. Call a physician if irritation persists. **IF INHALED:** Remove victim to fresh air. Get medical attention.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drifts and runoff from treated areas may be hazardous to aquatic organisms in treated areas. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **SHAKE WELL BEFORE USING.** Not for use on plants grown for sale or other commercial use, or for commercial feed production or for research purposes. Not for use in greenhouses, sod farms or golf courses.

STORAGE AND DISPOSAL: Store in a cool, dry area away from heat or open flame. Do not reuse container. Rinse thoroughly before discarding in trash.

READY-TO-SPRAY DIRECTIONS FOR USE OUTSIDE AROUND HOMES, ON HOME LAWNS, TREES, SHRUBS, ROSES AND FLOWERS

The sprayer attached to the container is ready-to-use. Simply attach to your garden hose and follow these simple instructions:

- (1) Make sure the hose and sprayer are firmly connected to the hose.
- (2) Turn water supply on at the faucet. Water pressure will build in hose since your sprayer is already in the OFF position.
- (3) Bend the vertical tab on top of the sprayer AWAY from the control knob. At the same time, turn the control knob clockwise so that the safety stop on the knob clears past the vertical tab. Your sprayer is now in the WATER position, applying PURE WATER ONLY.
- (4) To apply product, turn the knob clockwise to the OFF position.

- (5) Water and product are now mixed at the proper rate. For best results, hold sprayer and container level and direct sprayer in a sweeping side-to-side movement. Walk at a steady pace overlapping slightly to cover the area that you wish to spray.
- (6) To stop spraying, turn the control knob back to the WATER position and then to the OFF position. Turn off water at the faucet to relieve water pressure in the hose, turn control knob back to the WATER position before removing sprayer from garden hose.
- (7) Turn the control knob back to the OFF position for storage of unused product and/or disposal of the entire unit

HOME LAWNS

For use on turfgrass varieties including: Bent, Bluegrass, Bermuda, Buffalograss, Dichondra, Fescue, St. Augustine, Zoysia to control Ants (including foraging fire ants), Armyworms, Chinch Bugs, Sod Webworms (lawn moths), Fleas, Ticks, Crickets, Cutworms, Earwigs, Grasshoppers, Chiggers, Mosquitoes and Sowbugs (pillbugs) infesting home lawns. Wet grass down thoroughly before spraying. Spray when insect pests first appear. Retreat as needed. Uniformly apply 6 fl. ozs. per 1,000 sq. ft. of home lawn area. Refer to fill level markings on side panel of container to determine amount (ounces) of product used. Do not allow use of treated areas by pets or people during application or until spray has dried. **DO NOT USE ON PETS.**

ROSES, FLOWERS, TREES AND SHRUBS

For control of Aphids, Bagworms, Tent Caterpillars, Fall Webworms, Grasshoppers, Spider Mites, Whiteflies, Exposed Thrips, Mealybugs, Japanese Beetles, Leafminers, Leafrollers, Scale. Avoid over-spraying to the point of excessive runoff. Treat when insect pests first appear and retreat as needed. As with all plants, especially chrysanthemums and roses, there exists a wide variety of species and cultivars, and therefore, a wide variety of susceptibility to injury. To ascertain possible phytotoxicity, spray a few plants as described above. Wait 24 hours, and check for possible injury.

NUISANCE INSECT PESTS OUTSIDE THE HOME

For control of Ants (including Fire, Pharaoh (Sugar), Carpenter, Red Harvester, Odorous House), Clover Mites, Crickets, Earwigs, Millipedes, Pillbugs (Sowbugs), Fleas, Ticks, Flies, Gnats, Mosquitoes, Spiders, Scorpions, Chiggers, Roaches. Spray window and door screens, porches, patios, entranceways, walks, driveways, and into cracks and other places where insect pests can hide. To prevent entry into homes, spray a 5 foot band of soil around the home next to the foundation and spray the foundation of the home to a height of 2 to 3 feet. Repeat as needed.
